TECHNICAL ITEMS for PLUMBING and COMPATIBLE SPARE PARTS

Mail-order sales. If undeliverable, return to sender Copyright by Antares®. Price: £10.00. Free for customers. (If no order is received, the right to automatic delivery is forfeited).

Catalogue and price list 2026

FOR YOUR URGENT ORDERS

FAST AND
RELIABLE
shipping across
EUROPE

www.antaresint.com

From 07:30 to 12:00
and to 13:00 to 16:30

With an answering service
available to take **your orders**
overnight, on Saturdays and on
public holidays.

WE ARE AT YOUR DISPOSAL FOR ANY ASSISTANCE

Our technical department is
available to provide **any information**
regarding the use of our products

Catalogue and General Price List No. 35

SECTION "F" (fire)

This catalogue, exclusively DISTRIBUTED TO COMPANIES REGISTERED IN THEIR COUNTRY'S CHAMBER OF COMMERCE, is just a section of a broader, general catalogue, composed of two sections:

Section (F) Fire:
SPARE PARTS AND
THERMOREGULATION
Gas, diesel and biomass (pellets)

Section (W) Water:
HYDRONIC SYSTEMS
for plumbing and industrial systems

If you did not receive both parts of the "F" (Fire) and "W" (Water) catalogue, please request them. If you are registered in the Chamber of Commerce, upon verification, we will send it to you free of charge.

WHY BUY FROM ANTARES

BEST PRICES

FROM MANUFACTURER TO INSTALLER

Many products are manufactured from **ANTARES** group, directly oriented towards you, the professionals, without costly sales steps

PRICE PROTECTION

For the safety of your profession, **ANTARES** sells exclusively to companies registered in the Chamber of Commerce.

PRE-SALE ASSISTANCE

Our technical office is always available for any additional info, and to help you choose

AFTER-SALE ASSISTANCE

After-sale assistance, everyday by your side

FAST AND SAFE PURCHASES

Immediate check of the availability of products. Real-time order, with products' put aside for you. Direct check of all the steps: from preparation to delivery.

DELIVERY

No more useless expenses and waste of time to receive your products, with **ANTARES** delivery is fast, at fixed price and at destination.

SATISFIED OR REFUNDED

FAST AND EASY RETURN

Are you not satisfied? If, for any reason, an article does not satisfy you, you can ask for replacement or refund within 30 days.

SAFE WEBSITE & E-COMMERCE

Protected by an encrypted security system

DELIVERIES IN ALL EUROPE

Our European sales structure, with mother-tongue employees, is always available to assist you in your sales and technical questions.

E-MAIL

eire@antaresint.com

ORDER DIRECTLY AND INSTANTLY

If you place your order **ONLINE** or by **PHONE**,
you can receive **immediate confirmation** of product availability and reserve the items immediately

DELIVERY INFORMATION

For every order, regardless of the quantity of goods, **ANTARES** applies a fixed flat-rate charge:

- **FREE** for purchases over **€ 680.00**
- **€ 12.65** for purchases below **€ 680.00**

No additional charges apply, regardless of the order amount. Goods are delivered directly to your address, carriage paid, by courier or postal service:

- **For any destination**
- **For any weight**
- **For any volume**

If you are not available at the time of delivery, a notice will be left so that arrangements can be made either for collection from the depot or for a new delivery attempt.

FREE
shipping
on orders
over **€ 680.**

★ After placing your order, you will receive a **confirmation** by **e-mail** or **SMS**.

★ From that moment on, **via our website** www.antaresint.com,
you will be able to **track your order** directly, from preparation to delivery.

Check your order, entered directly by you or by one of our operators.

Check the status of your order:

- **Being prepared**
- **Prepared and invoiced**, in which case you can:
 - Check the weight, number of packages, and value of the prepared goods.
 - Check and print the invoice for the prepared order.
- **Handed over to the courier**, in which case you can:
 - Check the courier's name
 - Check the departure time of the shipment.
 - Check the shipment reference number (*tracking number*).
- **In transit**, in which case you can:
 - Track the current location of the goods during transport.
 - Check the estimated delivery time to the specified address.

www.antaresint.com

- **Instant stock availability check**
- **Place orders in real time and reserve items instantly.**
- **Track every step from order to delivery**

PAYMENT OPTIONS

A plastic envelope containing the invoice is attached to the outside of one of the packages in your shipment, allowing easy verification of the dispatched items.

PAYMENT CAN BE MADE USING THE FOLLOWING METHODS:

➤ **By credit card, such as:**

You will not be charged for products that are temporarily unavailable.

➤ **Advance payment by:**

➤ Transfer of the order amount, including the fixed delivery charge, to the following account: **IBAN: IE42 AIBK 9310 1212 4790 04: BIC: AIBKIE2D - AIB - ALLIED IRISH BANKS p.l.c. DUBLIN.**

➤ **PayPal** by providing the payment reference details.

➤ **30 days bank transfer terms**

Subject to prior approval.

➤ **60 days bank transfer terms**

Only for orders over **€850.00**, subject to prior approval.

The general terms and conditions of sale can be viewed and downloaded from our website: www.antaresint.com

CATALOGUE AND PRICE LIST

This catalogue, exclusively DISTRIBUTED TO COMPANIES REGISTERED IN THEIR COUNTRY'S CHAMBER OF COMMERCE, is just a section of a broader, general catalogue, composed of two sections:

Section (W) Water: PLUMBING Spare parts for plumbing and industrial systems.

Section (F) Fire: SPARE PARTS AND THERMOREGULATION Gas, diesel and biomass (pellet).

If you did not receive both parts of the "F" (Fire) and "W" (Water) catalogue, please request them. If you are registered in the Chamber of Commerce, upon verification, we will send it to you free of charge.

N.B.: Next to the Page number, you will see the letter for the corresponding section.

TABLE OF CONTENTS

A

Actuators and spare parts for diverter valves.....	161 (F)
Adapters and etc. ntrics fittings for radiator replacement.....	48 (W)
Adhesive and insulation tapes.....	186 (F)
Air and gas pressure switches for boilers.....	153 (F)
Air compressors for expansion vessels and accessories.....	194 (W)
Air treatment filters.....	190 (W)
Air vent separator for circulating pumps.....	25 (F)
Air vents / deaerators.....	78 (W)
AISI 304L stainless steel distribution manifolds.....	12 (W)
AISI 304L stainless steel distribution manifolds/pre-assembled pairs.....	14 (W)
Anti-condensation valves for biomass boilers.....	89 (W)
Anti-condensation – pre-assembled units for biomass systems.....	91 (W)
Antifreeze liquids and pipe protection fluids.....	187 (W)
Antifreeze thermostatic valves.....	146 (W)
Anti-vibration joints and expansion compensators for water.....	104 (W)
Anti-vibration joints and flexible hoses for gas.....	50 (F) 105 (W)
Anti-vibration supports for heat pumps/generators/air conditioners.....	181 (W)
Automatic boiler filling charger.....	173 (F)
Automatic pellet/wood chip transport systems for boilers.....	93 (W)
Automatic telephone switch for boilers/systems.....	39 (F)
Auxiliary pumps for diesel or fuel oil burner supply.....	58 (F)
Axial fans.....	72 (F)

B

Ball valve actuator for water and gas.....	54 (F)
Ball valves for gas.....	47 (F) 76 (W)
Ball valves – "MIGNON" (mini).....	75 (W)
Ball valves – motorised.....	45 (F)
Ball valves for water, air and various fluids.....	71 (W)
Bimetal disc thermostats.....	35 (F) 174 (F)
Biomass – anti-condensation valves.....	89 (W)
Biomass – automatic pellet or wood chip transport systems.....	93 (W)
Biomass – centrifugal fans.....	73 (F)
Biomass – combustion draft regulators.....	89 (W)
Biomass – electronic control boards.....	78 (F)
Biomass – electronic control units for thermo-fireplaces.....	38 (F) 90 (W)
Biomass – flue pipes / flue systems.....	79 (F)
Biomass – gear motors for stoves and boilers.....	66 (F)
Biomass – high-temperature cables and sheaths.....	63 (F)
Biomass – high-temperature tangential fan spare parts.....	71 (F)
Biomass – high-temperature tangential fans.....	69 (F)
Biomass – Igniters – accessories and spare parts.....	63 (F)
Biomass – Igniters – brand-specific models.....	63 (F)
Biomass – Igniters 230V.....	59 (F)
Biomass – Igniters 24VAC.....	63 (F)
Biomass – open expansion vessel.....	89 (W)
Biomass – pellet and wood chip level sensors.....	95 (W)
Biomass – pre-assembled anti-condensation groups.....	91 (W)
Biomass – immersion pockets for temperature sensors.....	65 (F)
Biomass – safety and drain valves.....	88 (W)
Biomass – flue fans for stoves and boilers.....	76 (F)
Biomass – suction pipes.....	80 (F)
Biomass – temperature probes and sensors.....	64 - 108 (F)
Biomass – thermocouples.....	65 - 108 (F)
Biomass – wood and pellet moisture testers.....	92 (W)
Boiler and stove cleaning – products.....	87 (F)
Boiler and stove cleaning – vacuum units.....	86 (F)
Boiler component filters.....	173 (F)
Boiler drain valves.....	173 (F)
Boiler filling solenoid valves.....	173 (F)
Boiler filling valves.....	171 (F)

B

Boiler - gas ignition and control devices.....	90 (F)
Boiler room manifolds for distribution gr. DN20, DN25, DN32.....	113 (W)
Boiler safety valves – spare heads.....	192 (F)
Boiler, stove and flue cleaning tools and materials.....	85 (F)
Booster pumps for domestic hot water pressure.....	18 (F)
BRAHMA – gas burner control units.....	90 (F)
BRAHMA – diesel burner control units.....	88 (F)
Brand-specific flue fans gas extractors for gas boilers.....	148 (F)
Brass compression fittings for capillary copper tubing.....	64 (W)
Brass compression fittings with ogive for copper pipe.....	62 (W)
Burner motor replacement flanges.....	176 (F)
Burner control units.....	88 (F)
Burner nozzles.....	188 (F)
Burner pumps.....	178 (F)
Burner pumps – accessories.....	179 (F)

C

Cable connecting terminals.....	187 (F)
Cable ties and accessories.....	182 (W)
Capillary copper tubing – brass fittings with ogive.....	64 (W)
Capillary pressure gauges.....	175 (F)
Capillary thermometers.....	175 (F)
Capillary thermostats.....	174 (F)
Capillary pipes, fittings and drippers for irrigation.....	151 (W)
Centrifugal fans for biomass equipment.....	73 (F)
Check and foot valves.....	96 (W)
Check valves for boilers and water heaters.....	96 (W)
Circulator motors – 3-speed (non high-efficiency).....	12 (F)
Circulators – twin manifolds.....	18 (F)
Circulators – connection cables and adapters.....	24 (F)
Circulators – insulation shells.....	26 (F)
Circulators – pump bodies / volutes / housings.....	25 (F)
Circulators – valves and accessories.....	99 (W)
Circulators – valves and fittings.....	26 (F)
Circulators for domestic hot water.....	17 (F)
Circulators for solar thermal systems.....	16 (F)
Circulators with custom plastic pump bodies for boilers.....	19 (F)
Cleaning agents and sanitizing products.....	186 (W)
Cleaning boilers - vacuums and ash extractions.....	86 (F)
Cleaning boilers/stoves/chimney - tools and materials.....	85 (F)
Combustion draught regulators.....	89 (W)
Compression fittings for polyethylene and multilayer pipes.....	34 (W)
Compression plastic fittings for plastic pipe.....	69 (W)
Compression quick brass fittings for copper pipe.....	64 (W)
Condensate acid neutralisers.....	141 (W)
Condensate drain pumps.....	139 (W)
Condensate drain pumps – accessories.....	139 (W)
Condensers for electric motors.....	187 (F)
Condensing boilers – flue systems.....	81 (F)
Connection cables for circulators and adapters.....	24 (F)
Control and ignition units for gas burners and boilers.....	90 (F)
Control boards for biomass equipment.....	78 (F)
Controllers and thermostats for solar thermal systems.....	39 (F) 87 (W)
Copper pipe – brass compression fittings with ogive.....	62 (W)
Copper pipe – quick compression brass fittings.....	64 (W)
Copper pipe – soldered fittings in bronze.....	67 (W)
Copper pipe – soldered copper fittings.....	65 (W)
Couplings for diesel pumps.....	177 (F)
Counter flanges.....	61 (W)
CSST corrugated pipe – tools.....	193 (W)
CSST corrugated pipes.....	106 (W)
CSST corrugated pipes – fittings.....	107 (W)

C

CSST corrugated pipes – installation accessories.....	109	(W)
CSST corrugated stainless steel tubes.....	106	(W)
Cylinder gas fittings and accessories.....	55	(F)
Custom flow switches and flow meters for various boiler brands..	164	(F)
Custom safety valves for specific boiler brands.....	189	(F)

D

DANFOSS – diesel burner pump with solenoid valve.....	179	(F)
Deep well submersible pumps.....	136	(W)
Descaling liquids and pumps.....	194	(F)
Descaling pumps.....	194	(F)
Diaphragm surge tanks (pressure vessels).....	129	(W)
Dielectric insulating fittings.....	48	(F) 57 (W)
Digital probe-type thermostats.....	35	(F)
Discharge and safety valves for biomass systems.....	88	(W)
Distribution manifolds – accessories.....	16	(W)
Distribution manifolds – boxes.....	17	(W)
Distribution manifolds – components and accessories.....	118	(W)
Distribution manifolds – copper, polyethylene and multilayer fittings...	21	(W)
Distribution manifolds – support brackets.....	18	(W)
Diverter valve for boilers – cartridges for boilers.....	161	(F)
Diverter valves for boilers – actuators and spare parts.....	161	(F)
Diverter valves for specific boiler brands.....	160	(F)
Domestic high-efficiency circulators with PWM.....	8	(F)
Domestic high-efficiency circulators without PWM.....	13	(F)
Domestic hot water cartridges.....	168	(F)
Domestic hot water copper heat exchangers for boilers.....	140	(F)
Domestic hot water recirculating pumps.....	17	(F)
Domestic hot water distribution manifolds.....	15	(W)
Drawn brass distribution manifolds.....	8	(W)
Drawn brass distribution manifolds – pre-assembled pairs.....	12	(W)
Drip irrigation pipes with integrated dripline and fittings.....	152	(W)

E

Eccentric fittings and adapters for radiator replacement.....	48	(W)
Electric diverter valves for boilers.....	157	(F)
Electric heating elements for water heaters.....	145	(W)
Electric thermostatic actuators for radiator valves.....	50	(W)
Electrical connections for MODULEX FLEX circulators.....	24	(F)
Electrical connectors – FASTON terminals.....	64	(F)
Electrical fuses.....	187	(F)
Electrical connecting terminals.....	187	(F)
Electronic boxes for gas burners and boilers.....	90	(F)
Electronic control units for thermo-fireplaces.....	38	(F) 90 (W)
Electronic temperature control units.....	37	(F)
Embedded capillary thermostats.....	35	(F)
Escutcheons (roses).....	158	(W)
Expansion joints and anti-vibration joints for water systems.....	104	(W)
Expansion vessels for booster sets.....	129	(W)
Expansion vessels for heating systems.....	81	(W)
Expansion vessels for heating systems – accessories.....	82	(W)
Expansion vessels for wall boilers.....	193	(F) 81 (W)

F

Fan coil units – replacement motors.....	190	(W)
Fan coil units – thermostats.....	30	(F)
Fan coil units.....	188	(W)
Faston electrical terminals.....	64	(F)
Fittings for distribution manifolds.....	21	(W)
Fittings for valves and lockshield valves.....	49	(W)
Fittings for zone valves.....	46	(F) 149 (W)
Flared tube nuts.....	58	(W)
Flexible corrugated hose sheath.....	187	(W)
Flexible hoses and anti-vibration joints for gas.....	50	(F) 105 (W)
Flexible hose kits for boiler installation/replacement... ..	50	(F) 104 (W)
Flexible hoses for heating and solar systems.....	103	(W)
Flexible hoses for burners.....	180	(F)
Flexible hoses for water.....	101	(W)
Flexible discharge pipes.....	162	(W)
Float switch.....	130	(W)
Float valves.....	164	(W)
Flow and pressure switches for heating systems.....	41	(F)
Flow and return valves for boilers and water heaters.....	83	(W)
Flow sensors.....	169	(F)

F	Flow switches and flow meters – cartridges and turbines.....	168	(F)	
	Flow switches and flow meters for boilers.....	163	(F)	
	Flue ducts – accessories.....	87	(F)	
	Flue fans for gas boilers – accessories.....	150	(F)	
	Flue pipes and accessories for gas and biomass boilers.....	80	(F)	
	Flue systems and components.....	79	(F)	
	Flue systems for biomass appliances.....	79	(F)	
	Flue liner systems for condensing boilers.....	81	(F)	
	Flue, fireplace, gas and biomass boiler maintenance.....	82	(F)	
	Flush mounting boxes and thermostat adapter plates.....	29	(F)	
	Foot valves and check valves.....	96	(W)	
	4-way mixing valves.....	97	(W)	
	Frost protection thermostatic valves.....	146	(W)	
G	Gas – ball valves.....	47	(F) 76 (W)	
	Gas – components and accessories.....	47	(F)	
	Gas – filters.....	51	(F)	
	Gas – flexible hoses and anti-vibration joints.....	50	(F) 105 (W)	
	Gas – HONEYWELL valves.....	109	(F)	
	Gas – isolation valves.....	53	(F)	
	Gas – pilot burners and accessories.....	185	(F)	
	Gas – portable gas leak detectors.....	49	(F)	
	Gas – pressure gauges.....	49	(F)	
	Gas – pressure regulators.....	51	(F)	
	Gas – SIT valves.....	113	(F)	
	Gas – SIT valves spares and accessories.....	116	(F)	
	Gas – solenoid valves.....	116	(F)	
	Gas – thermocouples.....	117	(F)	
	Gas pressure stabilisation regulators.....	51	(F)	
	Gas pressure switches and pressure gauges.....	49	(F)	
	Gas solenoid valves.....	116	(F)	
	Gas thermocouples.....	117	(F)	
	Gas, co (carbon monoxide) and co ² leak detectors.....	52	(F)	
	Gaskets for fittings and spares.....	171	(W)	
	Gas valves for Honeywell.....	109	(F)	
	Gate valves and isolation valves.....	77	(W)	
	Gear motors for pellet stoves and biomass boilers.....	66	(F)	
	General-purpose electrodes.....	183	(F)	
	Gland packings for boiler water groups.....	162	(F)	
	Gland packings for pressure valves.....	162	(F)	
	Grundfos – compatible replacement motor.....	11	(F)	
	H	Heat exchangers for water heaters.....	141	(F)
		High-temperature cable and sheaths.....	83	(F)
High-efficiency circulating pumps for solar systems.....		16	(F)	
High-efficiency circulator motors (universal) with pwm.....		10	(F)	
High-efficiency circulator motors (universal) without pwm.....		12	(F)	
High-efficiency domestic circulating pumps with pwm.....		8	(F)	
High-efficiency domestic circulating pumps without pwm.....		13	(F)	
High-flow flanged circulating pumps (high-efficiency).....		15	(F)	
High-temperature cables and sheaths.....		83	(F)	
High-temperature tangential fans.....		69	(F)	
Honeywell – gas valves.....		109	(F)	
Honeywell – ignition and control boards.....		93	(F)	
Honeywell – gas ignition and control boards.....		93	(F)	
Honeywell – control units for diesel burners.....		89	(F)	
Humidistats.....		31	(F)	
Hydraulic flanges.....		61	(W)	
Hydraulic separator – heat exchange module.....		90	(W)	
Hydraulic separators / low loss headers.....		22	(W)	
I		Ignition and detection electrodes for burners.....	183	(F)
		Ignition and flame detection electrodes.....	184	(F)
		Igniters for biomass stoves and boilers – 230V.....	59	(F)
	Igniters for biomass stoves and boilers – 24 VAC.....	63	(F)	
	Igniters for specific biomass stove and boiler brands.....	63	(F)	
	Ignition transformers.....	180	(F)	
	Immersion thermostats (analogue and digital).....	33	(F)	
	Instantaneous domestic hot water production units.....	126	(W)	
	Insulation and refractory slabs.....	84	(F)	
	Insulation panels accessories for underfloor heating systems.....	42	(W)	

I	Insulation panels for underfloor heating systems	40	(W)
	Insulation shells for circulating pumps	26	(F)
	Insulation shells for plate heat exchangers	139 (F) 124	(W)
	Isolation valves and gate valves	77	(W)
	Isolation valves for gas	53	(F)
	Inverters for electric pumps (constant pressure control)	131	(W)
	Irrigation – capillary pipes, fittings and drippers	151	(W)
	Irrigation – modular plastic manifolds	151	(W)
	Irrigation – perforated pipes with dripline and fittings	152	(W)
Irrigation systems	150	(W)	

L	Large motorised valves	46	(F)
	Large-capacity flanged high-efficiency circulators	15	(F)
	Level controls	130	(W)
	Limescale prevention devices	141	(W)
	Low water safety pressure switches for boilers	154	(F)
	Low-capacity diesel burners	88 (F) 127	(W)
	Low loss headers/hydraulic separators	22	(W)
	LPG – fittings and accessories for gas cylinders	55	(F)
	LPG – cylinder pressure regulators/reducers	55	(F)
Lubricants and sliding greases	186	(W)	

M	Macerator pumps for wastewater (basement WC applications) ..	138	(W)
	Magnesium sacrificial anodes	159 (F) 144	(W)
	Magnetic dirt separators (sludge separators)	140 (F) 143	(W)
	Manifold boxes	17	(W)
	Medium flow high-efficiency circulators with PWM	14	(F)
	Medium/high-flow circulating pumps (high-efficiency, PWM) ..	14	(F)
	Medium-flow circulating pumps (high-efficiency, PWM)	14	(F)
	Medium-high flow high-efficiency circulators with PWM	14	(F)
	Medium-large capacity manifolds	19	(W)
	Microswitches	158	(F)
	Mini ("MIGNON") ball valves	75	(W)
	Mixing units for underfloor heating systems – accessories ..	27	(W)
	Mixing valves and servomotors	36	(F)
	Modular plastic manifold for irrigation systems	151	(W)
	Modular stainless steel manifolds for distribution groups ..	112	(W)
	Moisture meters for wood and pellets	92	(W)
	Motorised ball valves	45	(F)
	Multi-channel RF receiver for wireless thermostats	32	(F)
	Multilayer pipes PE-RT/AL/PE-RT	32	(W)
	Multilayer pipes PE-RT/AL/PE-RT – compression fittings	34	(W)
	Multilayer pipes PE-RT/AL/PE-RT – nickel-plated fittings	36	(W)
	Multilayer pipes PE-RT/AL/PE-RT – press fittings	34	(W)
	Multilayer pipes PE-RT/AL/PE-RT – tools	193	(W)

N	Nickel-plated fittings for polyet. and multilayer pipes	36	(W)
	Non-return and foot valves	96	(W)
	Non-return valves for boilers and water heaters	96	(W)

O	Oil – auxiliary supply pumps for burners	58	(F)
	Oil – burner control equipment	88	(F)
	Oil – burner motor replacement flanges	176	(F)
	Oil – burner nozzles	188	(F)

HIGH-EFFICIENCY COMPACT CIRCULATORS WITH FREQUENCY MODULATION ($EEI \leq 0.21$) WITH PWM

The MODULEX circulating pump, like all frequency modulation circulators, is made to automatically adapt to the system's needs through its controller, and to the number of heaters open or closed. Through its inverter it increases and decreases the number of revolutions and so the quantity of water in relation to the system's needs. It can have a PWM control socket with which, if connected, it is controlled by the boiler's electric box, and, if not connected, is self-regulating in relation to the system's need.

Mod. HYBRID CAST-IRON BODY

4 Year Warranty

Main features

- $EEI \leq 0.21$
- Function: SELF ADAPT - SA
- Constant speed - CS
- Proportional pressure - PP
- Constant pressure - CP
- Controller PWM
- Function display

Compatible and interchangeable with:

WILO

- PARA (all types with or without PWM controller)
- PICO (all types with or without PWM controller)
- YONOS (all types with or without PWM controller)

Old Models
RS xx / X
and other brands

Compatible and interchangeable with:

GRUNDFOS UPM3 and other brands
Alte GRUNDFOS-Modele and other brands

- UPM3 (all types with or without PWM controller)
- UPM2 (all types with or without PWM controller)
- ALFA2 (all types with or without PWM controller)

Old models
Grundfos UPS xx xx
xxx and other brands

Art. P.110 - Antares circulating pump type Modulex Hybrid with frequency modulation inverter, high-efficiency, wet rotor. With PWM control socket, equipped with SELF ADAPT function, self-regulating with or without cable connection to PWM controller. Temperature: 2 – 110 °C.

Max flow rate: m³/h 4.1. Self-regulating. Satisfies every need of a circulating in a single product. Comes with gaskets and power cable. Power supply 230 Vac – 4-years warranty.

Complete with connection cables

Connections Type: Common Style

Power supply connection type Molex
Connection PWM type FCI

Mod. FLEX CAST-IRON BODY

4 Year Warranty

Price 54.25 €

A circulating pump for all uses and replacements:

Heating and cooling systems, heat pumps, solar thermal systems – Can be equipped with all the specific and fast electrical connections for replacements.

Grundfos Standard

Wilo Standard

Grundfos FCI

Common Style

Compatible WILO INT.

Snap-fit sockets for terminal blocks type Wilo INT. Facilitates replacement for maintenance services.

MODEL REGISTERED WITH UTILITY PATENT

Art. P.112 - ANTARES type Modulex Flex circulating pump with frequency modulation inverter and terminal block Wilo INT compatible, high-efficiency, with wet rotor. With PWM control socket, equipped with AUTO Adapt function, self-regulating with or without cable connection to PWM regulator – Temperature: 2-110 °C.

Max. flow rate: mc/h 4.1 – Head: 8 mt – Satisfies all the needs of a circulating pump in one single product – Power supply: 230 Vac – 4-year warranty.

Replacement motors with PWM-controlled variable-speed impeller for domestic circulator pumps

FLEX frequency conversion type with PWM control and socket – Energy Efficiency Index < 0.21

**CLOCKWISE ROTATION
FOR WILO and other brands**

Price € 51.35

4 YEAR WARRANTY Art. P.122

Art. P.122 - Universal spare motor with high-efficiency frequency conversion rotor and inverter for replacements on domestic circulators WILO and other brands with clockwise rotation (CW). With PWM control socket and equipped with SELF ADAPT, PP, CP, CS functions. Self-regulating with or without cable connection to PWM controller. 4-year warranty.

Self-regulating. Satisfies all the needs of a circulating pump all in one product. Distance between mounting holes 69 mm. Comes with gaskets*. Max. flow rate: 4.1 mc/h – Max. head 8 mt. – 4-year warranty.

*The motor can use the power supply cables already present in the boilers, therefore it is supplied without cables. For extra cables see [page 24 \(F\)](#).

High-efficiency universal motors with spare impeller for domestic circulators WITHOUT PWM

UNIVERSAL MOTORS WITH IMPELLER:

2 models (ANTI-CLOCKWISE AND CLOCKWISE) that allow interchangeability on almost every circulators for domestic hot water on the market. The integrated electronic inverter will automatically regulate the head in relation to the system's needs.

REPLACING THE MOTOR OFFERS MANY BENEFITS:

- Speed and ease due to the replacement of the motor only
- Less stocking and less fixed assets

ANTI-CLOCKWISE ROTATION FOR GRUNDFOS and other brands

Art. P074.60

CLOCKWISE ROTATION FOR WILO and other brands

Art. P075.60

N.B.

For functions and technical features, please see Art. P065 (on the next page).

N.B.

Art. P074.60 - Universal high-efficiency spare motor, with rotor, for replacement on domestic water circulating pumps WILO, ANTARES and other brands. With side electronic equipment and display of electrical consumption. Comes with screws. Anti-clockwise rotation.

Distance between mounting holes 68 mm. Comes with selectable speed controller, which allows reaching 4, 5 and 6 mt. head. 230 Vac. Max head 6 mt., flow rate 3.3 mc/h.

Quantity ≥	1	10
Price €	65.80	62.77

Art. P075.60 - Universal high-efficiency spare motor, with rotor, for replacement on domestic water circulating pumps WILO, ANTARES and other brands. With side electronic equipment and display of electrical consumption. Comes with screws. Clockwise rotation.

Distance between mounting holes 69 mm. Comes with selectable speed controller, which allows reaching 4, 5 and 6 mt. head. 230 Vac. Max head 6 mt., flow rate 3.3 mc/h.

Quantity ≥	1	10
Price €	66.85	64.34

Universal spare motors with rotor for low efficiency domestic water pumps

UNIVERSAL MOTORS WITH IMPELLER:

2 models (ANTI-CLOCKWISE AND CLOCKWISE) allow interchangeability on almost every circulating pumps for domestic hot water on the market. The integrated electronic inverter will automatically control the head in relation to the system's needs.

REPLACING THE MOTOR OFFERS MANY BENEFITS:

- Speed and ease due to the replacement of the motor only
- Less stocking and less fixed assets

ANTI-CLOCKWISE ROTATION FOR GRUNDFOS and other brands

Art. P084.60

CLOCKWISE ROTATION FOR WILO and other brands

Art. P085.60

Art. P084.60 - Universal spare motor with rotor for replacement on domestic water circulating pumps, "GRUNDFOS," "MYSON," "ANTARES" and other brands. Comes with screws. Anticlockwise rotation.

Distance between mounting holes 68 mm. Comes with selectable speed controller, which allows adjustment the head to the system's needs. Max. head 6 mt. Flow rate: 3.3 mc/h.

Quantity ≥	1	10
Price €	29.35	28.75

Art. P085.60 - Universal spare motor with rotor for replacement on domestic water circulating pumps "WILO," "WSC" and other brands. Comes with screws. Clockwise rotation.

Distance between mounting holes 69 mm. Comes with selectable speed controller, which allows adjustment the head to the system's needs. Max. head 6 mt. Flow rate: 3.3 mc/h.

Quantity ≥	1	10
Price €	29.95	28.75

N.B.

This product is to be considered a spare part (component) for a circulating pump; therefore, it can be installed, as it does not fall under the EuP Directive 2016, which applies to complete circulating pumps and not to spare parts for older models.

High efficiency compact circulating pumps with frequency modulation without PWM (EEL≤0.21)

“AlfaMax” small flow rate Series 5-6 mt. with side-mounted electronic unit

Art. P065 - “AlfaMax” wet rotor, high energy efficiency circulator, EU Energy Label A and with EEI energy efficiency coefficient less than 0.20. With side electronic equipment.

With lateral electronic equipment and display of electrical consumption. Equipped with wet rotor - 2 year warranty. Complies with the new European Directive ERP 200/125/CE. For the insulation shell, see item P070, **on page 26 (F)**.

“AlfaMax” small flow rate Series 6-8 mt. with front-mounted electronic unit

Art. P064 - “AlfaMax” wet rotor high energy efficiency circulator, EU Energy Label A and with EEI energy efficiency coefficient lower than 0.20. With display of electricity consumption.

Wet rotor. 2-year warranty. Already compliant with the new European ERP directive 200/125/EC. For the insulating shell see art. P070 **on page 26 (F)**.

Recirculating pumps for domestic hot water

Plastic body

Art. P061.80

2-YEAR WARRANTY

Art. P061.80 - High-efficiency recirculating pump ANTARES MODULEX H for domestic hot water. 230 V. Counterclockwise rotation (CCW). Plastic body. Technical and performance characteristics like Art. P110 on page 8.

Coupling 1" M. Height of connections: 130.

Price € 61.65

Bronze body

Art. P090.00

2-YEAR WARRANTY

Art. P090.00 - Antares recirculating pump for domestic hot water with bronze body 230 V - 50 Hz - 2-years warranty. Head: 6 mt. - Flow rate: 3.3 m³/h.

Connections: 1 1/2" M. - 96 W.
Maximum pressure: 10 bar.

Price € 98.85

Stainless steel body

Art. P093.02

2-YEAR WARRANTY

Art. P093.02 - High-efficiency re-circulation pump for domestic hot water. W= 9 - 230 V. - 50 Hz. Stainless steel body.

Connections: 1/2" F. - Maximum pressure 10 bar
- Head: 1.1 m. Flow rate: 10 litres/min. - 2-years warranty.

Price € 127.77

Brass body

Art. P094.02

2-YEAR WARRANTY

Art. P094.02 - High-efficiency recirculation pump for domestic hot water ANTARES type HOTMATIC 15-1.5 with brass body. Power consumption: 5 W - 230 Vac. - 2 years warranty.

Connections: 1/2" F. F. - Comes with insulating shell. With temperature sensor. Flow rate: 0.9 m³/h
- Head 1.5 m.

Price € 63.47

Brass body

Art. P095.00

2-YEAR WARRANTY

Art. P095.00 - High-efficiency ANTARES type HOTMATIC recirculating pump for domestic hot water. 15-1.5 with brass body. Consumption: 8 W - 230 Vac. - 2 year warranty.

Couplings: 1/2" F. F. - Complete with insulating shell. With temperature sensor. Flow rate: 0.9 m³/h. Head 1.5 m. With electronic control display with programming for:

- Operation at hourly intervals over 24 hours.
- Operation with temperature control
- Washing function, to avoid bacterial colonies formation

Price € 96.65

Automatic pressure boosting pumps

2-YEAR WARRANTY

Art. P202.02

Application:

IDEAL FOR LARGE SHOWERS

Art. P202.02 - Pressure boosting pump for domestic hot water – 18 l/m.

High-efficiency pressure boosting pump for domestic hot water. Brass body. Connections: 1/2" M. - 1/2" M. 230 Vac - 18 litres. per minute - Head: 12 m.

Price € 116.79

Art. P204.03

Art. P204.03 - ANTARES domestic water pressure boosting pump type BOOSTER PRESSION 15-9AB with brass body. - 2 year warranty.

3/4" connections, complete with brass pipe unions. Length from coupling to coupling: 160 mm. With check-valve and integrated flow switch, which allows automatic start and stop. Power: 120 W - 230 Vac. Head: 9 m. - Flow rate: 1.78 m³/h. Designed to increase the pressure of domestic water supplied from an external source and make it available for showers, taps and other withdrawal points.

Price € 77.48

Manifolds for circulators twin coupling

Art. P180

1 1/2"

Art. P181

2"

Art. P180 - Manifold for circulators twin coupling complete with n. 2 screwdriver ball valves for an easy replacement, with no need to drain the system. With insulating shell.

Connections: system side 1 1/2" – pumps side: 1 1/2" F. swivel.

P181.60	With check valve	368.20

Circulators with plastic-body for customised boilers

Art. P061.80

P061.80 – High-efficiency, wet rotor Antares circulating pump with mixed plastic body type Modulex Hybrid, with frequency modulation inverter. With PWM control socket, equipped with SELF ADAPT function, self-regulating with or without cable connection to PWM controller. Can be used with DHW. Performance characteristics same as art. P.110 on page 8 (F).

Max flow rate: m2/h 4.1. Self-regulating. Satisfies all the needs of a circulating pump in one single product. Comes with gaskets and power cables. Power supply 230 Vac. 4-years warranty. Connections 1" M.

Price € 61.65

N.B.

Many boilers manufacturers equip their circulators with various electrical connection sockets. **ANTARES**, to help maintenance services with replacement operations, created a system (model registered with utility patent) that involves the application on the base INT terminal block of snap fittings (protection level IP44) of the various connections used by manufacturers.

Circulating pump bodies

Art. P.151.68

Art. P.151.68 - Spare plastic composite body for circulating pump with automatic deaerator. Height: 130 mm - 1" M Couplings.

Compatible for anti-clockwise rotation with GRUNDFOS models type Cacao. Coupled to motors with impeller art. P.084.xx, P.074.xx or P.121.80 can be a complete circulating pump. Distance between fixing holes 68 mm. Complete with 2 gaskets for the couplings.

Price € 9.18

Art. P.153 - Spare cast iron body for circulating pump with counter-clockwise rotation (CCW).

Compatible with GRUNDFOS, ANTARES and other brands with 68 mm mounting hole spacing. Coupled to motors with impeller Art. P.084.xx, P.074.xx, P.121.80 can be a complete circulating pump. Complete with 2 gaskets for the connections.

Thermostat with presence detector and temperature probe for radiant systems

NEW!

Art. T.008.00

Art. T.008.00 - Digital room thermostat with presence detector in the room and temperature limiting probe for radiant systems.

Power supply: 230 Vac - Contact: 16 Amps.

The presence detector can be excluded position OFF. Mounting to box 72 x 72 Art. T.450.60 Allows the lowering of the temperature or the exclusion of the system if it does not detect the presence of people in the room for a time adjustable up to two hours. Complete with temperature limiting probe (adjustable) of the floor. Selection and adjustment of two ambient temperatures: Comfort - Economy: 5-45 °C. with frost protection function.

In AUTO mode, when it detects the presence of a person in the room with infrared (PIR), it selects the temperature Comfort, if for a determinable time (from 5 min. to 2 hours) no longer senses the presence of people, it selects the temperature Economy. When it senses the presence of people in the room, it sets again with the temperature Comfort.

Equipped with limit temperature probe for the heating system piping, to limit excessive temperature of radiant panels in case of malfunction of the unit of lowering and mixing the temperature of the boiler. Adjustable radiant panel limit temperature: 20-45°C.

R.F. wireless thermostats and chronothermostats

Art. T.225.00

Art. T.225.00 – RF Room Thermostat + RF Receiver for heating systems with wireless transmission of the control signal via radio frequency. Maximum signal range: 200 m in open space

The thermostat transmitter is powered by 2× AA batteries, while the receiver (230 VAC) can wirelessly control a boiler, a motorised valve, or any electrical device. When used together, the transmitter thermostat and receiver can manage the ON/OFF switching of multiple zone valves or other electrical devices. The digital LCD display shows both the ambient temperature and the setpoint. Wall-mounted installation with white enclosure.

Order quantity ≥	1	10	50
Price €	30.19	28.68	27.78

Art. T.230.03

Art. T.230.03 - RF digital room SLIMTRON type chronothermostat, wireless and touchscreen, with radio-frequency control signals transmission to its appropriate receiver (see next item). Battery powered 2 x AA with daily and weekly temperature programming. Wall-mounted on a slim, beige box 111 x 82 x 23, in refined and elegant design. Maximum signal distance: 200 mt. in open space.

Compatible with single-channel RF receivers Art T.235 and multi-channel Art. T.241.08. Transmission frequency: 433 MHz. Allows for the programming of different room temperatures every day of the week, 24h. Wide touchscreen backlit LCD display. With antifreeze function and programming stop.

Order quantity ≥	1	10	50
Price €	46.81	45.34	43.12

Art. T.235.00

Art. T.235.00 - Single-channel RF receiver with integrated receiving antenna, compatible with the T.230.03 programmable thermostat. Maximum signal range: 200 m in open space. Wall-mounted installation.

Reception frequency: 868 MHz. Power supply: 230 VAC. Outputs: 16A control output; 3A pump enable output. Paired with thermostat Art. T.230.03, it can control a boiler, a motorised valve, an actuator, or other electrical devices. It can also be used as an additional channel receiver alongside the 8-channel receiver (Art. T.241.08) to increase the total number of receivers required for the system. Designed for connection to an external temperature probe – optional Art. T.223, (see page 31(F)), or K.360, (see page 99(F)) – for underfloor heating systems, to limit and control the maximum flow pipe temperature at a set value.

Price € 27.48

Multi-channel R.F. receiver for wireless thermostats and chronothermostats

Art. T.241.08

Art. T.241.80 – Multichannel RF receiver for wireless thermostats T.230.03 signals in plastic boxes with connections for manifold's electrical actuators and with electronic circuit consent for the circulating pump and the boiler. To install next to the manifold, considering that the RF signal reception capacity is within 200 mts open space. The circuit provides an outlet for the pump's (and boiler's) switching on and off when one or more thermostats require heating.

Up to 4 actuators can be connected together to the same outputs. - RF signal reception range: 200 m in open space - Input voltage: 230 VAC - Actuator output voltage: 230 VAC. Pump output voltage: 230 VAC - Compatible with models T.230.03, **see page 31(F)** - Note: For quantities of channels exceeding 8, add one additional receiver, Art. T.235, **see p. 31 (F)**, for each extra channel.

Per order quantity ≥	1	5	10
Price €	101.64	96.42	93.82

Note: set the quantity of RF receiving channels in accordance with the quantity of room thermostats (transmitters). Consider that the signal reception signal in R.F. is 200 mt in open spaces, so, because of the obstructions, a distance of 150 mts is to be considered (the distance may vary).

Possible connections with:

- **9 wireless thermostats:** 1 multi-channel receiver with 8-channels Art. T.241.08 + 1 single-channel receiver Art. T.235
- **11 wireless thermostats:** 1 multi-channel receiver with 8-channels Art. T.241.08 + 3 single-channel receivers Art T.235
- **12 wireless thermostats:** 2 multi-channel receivers with 8 channels (4 remain free)

Art. T.230.03

Art. T.241.08

No. 2 Art. T.235

Manifold with zone valves

Electrical connection boxes

For wired thermostats and chronothermostats

Art. T.239

Art. T.239 - Plastic box for the electrical connections of thermostats with wired links to electric actuators (Art. V.058) installed on the manifold, with electronic control circuit for enabling the circulating pump and boiler. All thermostat (or programmable thermostat), actuator, and pump wires must be grouped inside the box, which is to be installed near the manifold. The internal electronic circuit provides an output for switching the circulating pump on and off when one or more thermostats call for heat.

Up to 4 actuators can be connected together on the same output. - Input voltage: 230 VAC - Actuator output voltage: 230 VAC - Pump output voltage: 230 VAC 4 A. Note: For thermostats and programmable thermostats **see page 27(F)**.

Electric transformers

Art. T.129

T.129 – Electric transformer with inlet 230 V and outlet 24 V.

Power W	25	63
Fixing	-	On DIN rail
Art. code	T.129.25	T.129.50
Price €	38.12	98.82

Analog and digital immersion thermostats

Art. T.020.00

Art. T.021

Art. T.020.00 – Immersion thermostat with adjustment handle. Sheath length 100 mm. Range: 0°C ÷ 90°C.

Switch contacts 10 A. With immersion pocket. Protection level IP 40. Sheath connection 1/2".

Quantity ≥	1	10
Price €	9.95	9.45

Art. T.021 – Safety immersion thermostat with manual reset sheath.

Switch contacts 16 A. Sheath length 100 mm. Sheath connection 1/2" M.

Art. code	Control	Price €
T.021.00	100 °C fix	14.61
T.021.70	40° ÷ 70° C adjustable (also used for underfloor heating systems safety)	29.78

Art. T.022.10

Art. T.025.00

Art. T.022.10 – Immersion thermostat with sheath and inner temperature control.

Temperature range: 0°C ÷ 90°C. Switch contacts 10 A. With immersion pocket. Protection level IP 40. Sheath connection 1/2". Sheath length 100 mm.

Quantity ≥	1	10
Price €	8.28	7.68

Art. T.025.00 – Dual thermostat with operating and safety device, equipped with temperature control knob, manual reset, and immersion sleeve.

Adjustable thermostat range: 0°C ÷ 90°C. - Fixed scale for safety thermostat: 100°C - Changeover contacts: 10 A.

Quantity ≥	1	10
Price €	19.36	18.33

Art. T.026.02

Art. T.026.02 – Double immersion thermostat with 2 adjustments sheath with knob.

Adjustable range: 0°C ÷ 60°C and 30°C ÷ 120°C. Switch contacts. Sheath connection 1/2", sheath length 100 mm.

Quantity ≥	1	10
Price €	18.88	17.88

Digital

Art. T.115.00

Price
€ 15.99

Art. T.115.00 – Electronic thermostat with display with immersion pocket 1/2" M, with temperature display. Temperature control range: 5° - 80°C.

Immersion pocket length: 50 mm – Power: 230 Vac. Switches: ON – OFF. 10 A – with cold-hot inversion – Protection level IP 40.

Price € 15.99

Analog and digital immersion thermostats

Art. T.017.05

Art. T.018.10

Art. T.017.05 – Contact thermostat with temperature control handle.

Temperature range: 0°C ÷ 90°C. Switch contacts 10°. Complete with fixing springs. Protection level IP 40.

Quantity ≥	1	10
Price €	9.84	9.32

Art. T.018.10 – Contact thermostat with inner temperature control.

Temperature range: 0°C ÷ 90°C. Switch contacts 10°. Complete with fixing springs. Protection level IP 40.

Quantity ≥	1	10
Price €	8.59	8.14

Art. T.019.70

Art. R.756.02

Art. T.019.70 – Safety contact thermostat with manual reset and inner temperature adjustment.

Adjustable range: 40°C ÷ 70°C. - Changeover contacts: 10 A. Its use is particularly suitable for underfloor heating system installations. Complete with fixing springs - Protection rating: IP 40.

Quantity ≥	1	10
Price €	16.64	15.75

Digital

Art. T.116.00

Price
€ 14.83

Art. R.756.02 - Thermal grease to increase conductivity.

Price € 2.66

Art. T.116.00 – Electronic temperature with touchscreen display, with temperature display. Temperature control range: 5° - 80°C. With spring clamp.

Power: 230 Vac – Switches: ON-OFF – 10 A. With cold-hot inversion. Protection level: IP 40.

Price € 14.83

Thermostat for hot air generators

Art. R.151.28

Art. R.151.28 – Double thermostats for hot air generators with external temperature control knob.

Adjustable temperature range: LIMIT 30°C ÷ 120°C. – FAN 0°C ÷ 60°C. With drilled sheath and joint- Length 250 mm.

Quantity ≥	1	10
Price €	65.65	62.52

Art. T.096

Art. T.101.07

Art. T.101.07 - Electronic room temperature control unit model T. Reg. 300, proportional integral with mixing valve control or burner, in relation to the external temperature variations, or in relation to room temperature daily and weekly programming.

It is an electronic device of advanced design which allows to keep under precise control the surrounding environment temperature. This control unit acquires temperature data from the probes and adapts the heating fluid to the desired temperature needs, for greater comfort.

The control unit programming is extremely easy: you just need to follow the instructions, setting them on the display.

This model T. Reg. 300 is a versatile device, which allows the user to choose its operating mode by connecting it to both mixing valves (integral proportional functioning) and burners (ON-OFF functioning).

These technical features make the installation of the control unit especially suited for civil and industrial systems heating.

Constant display of all the elements of the system: backlit graphic display. Dimensions: 158 x 90 x 58. Installation on Omega EN50092 rail (12 modules). With navigation control for probe temperature constant setting and control. Constant display of all the heating system temperatures. Setting languages: english, italian, spanish and french.

Price € 265.18

Art. T.105.14 - Plastic box with metallic rail Omega EN 50092 with capacity for 14 modules, complete with 5 cable glands diameter 8 mm.

Dimensions: 240 x 190 x 87 – Suitable for insertion of electronic control unit item T.101.07 – T.125.02 – T.127.04.

Price € 19.63

Electronic controllers for thermo-fireplaces

Art. T.126.00

Art. T.126.00 - Electronic control unit for water temperature control in thermo-fireplaces.

Detects the temperature with a probe and controls the circulating pump. Sound alarm for temperatures over 90°C that also works if in OFF position. GRILL switch. Antifreeze protection with automatic start-up of the pump. Comes with cover and probe. Supply: 230V ~ 15% 50 Hz. 60 Hz. Contacts 5A - 250 V ~ Temperature control: 30° ÷ 90°C. Intervention differential ~ 1.5°C. Probe type NTC. Temperature display: 20°C ÷ 90°C. Protection level IP30. With plastic casing for wall-fitting, 3 modules.

Price € 48.55

Art. T.128.00

Art. T.128.00 - Electronic digital control unit "201 RLX" for the control and adjustment of fireplace boilers, even combined with gas boilers with circuit separation, with heat exchangers, DHW storage and so on. Equipped with various system configurations, with various operating programmes you can select on a menu, through which you can adapt the control unit to the various systems available, with probe and 3-modules embedded box type 503.

Detects water temperature and control the circulator's switching on and off, and the automatic exclusion from the heating system to help domestic hot water supply with connection to the flowmeter. With anti-freeze function and automatic starting of circulator(s) to prevent the piping from freezing. 230 Vac.

Price € 54.31

Art. T.134.00

Art. T.134.00 - Electronic control unit AIR RLX for hot air thermo-fireplaces control. Complete with probe and 4-modules embedded box type 504.

Allows to display the temperature of the hot air outlet duct and to activate the vent once the set temperature is reached. 230 Vac.

Price € 66.15

Control units and thermostats for solar thermal systems

Price
€ 60.35

Art. T.124.00

Art. T.124.00 - Differential thermostat "Sundigit" for solar panels, wall-mounted with digital display, with 3 temperature probes.

When the panels temperature is higher than the temperature of the boiler's water, the thermostat starts the pump, allowing heat exchange between panel and boiler. With clock display, as well as manifold and heater's temperature. Manifold: 0°C – 200°C. Heater: 0°-100°C. Power: 230 Vac. Exit connections for pump and boiler: 5 A. Dimensions: 131 x 88 x (H) 27.2. Probes can be connected up to 100 mt.

Price € 60.35

Art. T.125.02

Art. T.125.02 - Differential thermostat SOLAR CONTROL for solar panels, with 3 probes – Installation on DIN rail for 3 modules.

When the panels temperature is higher than the temperature of the boiler's water, the thermostat starts the pump, allowing heat exchange between panel and boiler. To ensure a perfect exchange, the device is equipped with a temperature differential "delta T", variable from 1°C to 9°C, adjustable with the knob on the front of the thermostat.

Range: 30°-80°C. Differential range: 1-9°C. Power: 230 V. Relays outlet 10 A. Dimensions 53x90x58. Probes can be connected up to 100 mt. Equipped with 2 esclusio switches: solar panel pump, integration pump.

Price € 98.53

PWM 2

Art. T.127.04

Art. T.127.04 - Electronic control unit "SOLAR CONTROL SC 200" with solar panel display, with four temperature probes.

When the panels temperature is higher than the temperature of the boiler's water, the thermostat starts the pump, allowing heat exchange between panel and boiler. To ensure a perfect exchange, the device is equipped with a temperature differential "delta T", variable from 3°C to 15°C, adjustable with the knob on the front of the thermostat. Allows for integration of both sanitary water and traditional heating system.

Configuration of 4 different solar thermal systems:

- 1° System Boiler Panel
- 2° System Boiler Panel + accumulation boiler with automatic temperature control
- 3° Integration system to heating system with automatic control
- 4° Integration system to pool system with automatic control.

Domestic water priority.

Power: 230 Vac. Temperature reading field: -20°C. 120°C.

Fastening: onto electric box on DIN rail. 9 modules. See T.105.14.

Price € 188.74

Art. T.105.14

Art. T.105.14 - Plastic box with metallic rail Omega EN 50092 with capacity for 14 modules, complete with 5 cable glands diameter 8 mm.

Dimensions: 240 x 190 x 87 – Suitable for insertion of electronic control unit item T.101.07 – T.127.04.

Price € 19.63

Automatic phone switch for boilers or systems

While supplies last

Price
€ 9.75

Art. T.220.50

Art. T.220.50 - Automatic phone switch for turning on and off boilers, plumbing and heating systems, fan coils, radiators, air conditioners and any other electrical device. 230 V – 50 Hz. Complete with telephone cable and plug.

Price € 9.75

Immersion pockets for thermostats and temperature probes

Art. R.140

Art. R.140 - Immersion pockets for thermostats, thermometers and temperature probes.

Art. E.611

Art. E.347.03

For solar panels

Art. E.611 - Brass "Y"-fitting with temperature probe pocket.

Pocket with internal diameter: 9 mm.

Art. code	Diameter	Price €
E.611.10	1"M. x 1"F.	19.41
E.611.14	1¼"M. x 1¼"F.	25.25

Art. E.347.03 - Cross fitting with probe holder and manual vent-valve.

SQ connections ¾"M. x Ø 22 mm – Suitable for solar panels.

Price € 14.60

Art. R.141.02

Art. R.141.02 - Pack of 20 friction springs for immersion pockets. Length 100 mm. Diameter for 15 mm hole.

Price € 16.92

Art. R.142.02

Art. R.142.02 - Pack of 10 steel spring for fastening of thermostats capillary.

Price € 1.13

Art. R.143

Art. R.144

Art. R.143 - Brass probe holder immersion pocket ½"M. with plastic cable gland for cables Ø 6-8 mm.

Art. code	Length L	Price €
R.143.30	30 mm.	3.27
R.143.50	50 mm.	3.87

Art. R.144 - Probe holder immersion pocket with fixing compression fitting capsule Ø 8 mm- With plastic cable gland for cables Ø 6 – 8 mm.

Art. code	Diameter	Price €
R.144.18	1/8"	3.05
R.144.04	1/4"	3.13

Art. R.147.18 - Pack of 10 spring clips for fixing probe cables to Ø 18 mm boiler pipes. Made from zinc-plated spring steel.

Price € 8.07

Mounting spring for cable probes

Art. R.147.18

Floor panel with absorber

Art. R.148.10

Art. R.148.10 - Floor heat absorber immersion pocket, copper, 90 x 90 for easy insertion and extraction of probe with rigid cable in case of replacement. Complete with guide shell and 90° curved locking device art. G.737.16.

The pocket consists of a brass sheath welded to the copper body with threaded ends ½" M. that can be connected to a copper, polyethylene and multilayer pipe to protect the cable from the pit to the thermostat and to allow easy removal and re-insertion of the probe in case of replacement.

Order quantity ≥	1	10	50
Price € 19.43	19.43	18.45	17.35

Temperature probes for thermostats and thermoregulators

Art. T.223

Art. T.223 – Temperature probe normally used for underfloor heating systems, complete with 3 mt cable, can be connected to thermostats Art T.420, but can also be used to measure piping temperature and internal/external temperature.

Type NTC 25° = 10K - Diameter Ø 7 mm - Regulation range: -9.5°C / 99.5°C

Type	Soft cable	Hard cable to be inserted in underfloor sheaths
Art. code	T.223.00	T.223.03
Price €	3.78	4.59

For temperature probes:

- For boilers please see page 96 (F)
- For biomass systems please see page 108 (F)
- For solar panels please see page 107 (F)

Flow and pressure switches for heating systems

Art. T.150.00

Art. S.040

Art. T.155.20

Art. T.150.00 - Flowmeter for pipes from 1" to 8" "FLOMAX."

Changeover contacts 15 A - Connection 1" - Suitable for pipes until 8".

Price € 28.49

Art. S.040 - Brass differential pressure switch "MUT".

Connections	1/2" M. x 1/2" M.	3/4" M. x 1/2" M.
Complete of:	1 microswitch	2 microswitch
Art. code	S.040.01	S.040.00
Price €	58.12	60.82

Art. T.155.20 - Limit pressure switch with manual reset and visible adjustable range.

Connections 1/4" F. Range 2 - 4.5 bar. Compliant to I.S.P.E.S.L.

Order quantity ≥	1	5
Price €	25.26	24.62

Art. R.232

Art. S.042

Art. R.232 - Differential pressure switch for safe use of circulator pump type SFS "MUT". Connections 1/4" M.

Type with	1 microswitch	2 microswitch
Art. code	R.232.00	R.232.02
Price €	48.74	51.45

Art. S.042 - Brass differential pressure switch for water flow, small or big dimensions.

With complete passage of flow regulator and 2 microswitches with changeover contacts 10 A.

Diam. Ø	1" F.	1 1/4" F.	1 1/2" F.	2" F.
Art. code	S.042.10	S.042.14	S.042.12	S.042.20
Price €	144.79	163.10	182.46	235.34

For full range of flowmeters for boilers please see page 164 (F).

Time switches and hourmeters

Art. T.060.00

For the safety of your profession,
ANTARES sells exclusively to
companies registered in the
Chamber of Commerce

Art. T.060.00 - Embedded hourmeter – 230 V – 50 Hz – 5 digits + decimal.

Dimensions mm: 45 x 45 x 30.

Order quantity ≥	1	10
Price €	22.66	21.66

Art. T.067 - Digital electronic time switch with power reserve on box, can be installed on DIN rail for 35 mm module.

Daily and weekly programming. Programming range: 1 minute. With use indicator and anti-disturbance filter. With switch: ON-AUTO-OFF. Electric power supply: 230 VAC. Switches: 16°.

No. outlets	1		2	
Art. code	T.067.01		T.067.02	
Order quantity ≥	1	5	1	5
Price €	18.99	17.98	22.10	21.04

Art. T.067

Art. T.068.07

Art. T.068.07 - Digital electronic time switch with power reserve on SCHUKO socket.

Dimensions: 70x70x40. Daily and weekly programming. Programming range: 1 minute. With anti-disturbance filter. With one outlet. Power supply: 230 Vac. Switches: 16A.

Order quantity ≥	1	5
Price €	10.64	10.10

While stocks last

Art. T.070.24

Art. T.071.54

Art. T.070.24 - Programming time switch without power reserve.

Dimensions: 72 x 72 mm. Sector programming. Communal switches 16A. Daily programming. Programming range: 20 minutes.

Order quantity ≥	1	5
Price €	15.09	14.51

Art. T.071.54 - Embedded time switch, daily programming - Ø 62. Sector programming. Possible range: 15 minutes. 16° - 230 V.

Can be installed on new boilers or as a replacement (Riello – Beretta / Vokera – Simat, etc.)

Order quantity ≥	1	5
Price €	10.04	9.32

Price
€ 19.22

T.076.24 – Programming time switch for module boxes with power reserve.

Dimensions: 54 x 88.5. Sector daily programming with 15 minutes range. Changeover contacts: 16A.

Quantity ≥	1	5
Price €	19,22	18,61

Zone valves

Valves + actuators

Art. T.137

Art. T.138

Art. V.058

Art. T.130.70

Actuators can be applied to valves:

Art. V.051 - V.052 - V.053
V.054, a page 50 (W)

Art. T.141

T.137 – Linear 2-way valve with stainless steel closing rod with vertical stroke 4 mm. - Connection for actuator 30x1.5.

Combined with thermostatic actuators: Art. T.130.70.

Combined with electro-thermal actuators: Art. V.058.

Connections	3/4"M. x 3/4"M.	3/4"F. x 3/4"F.	1"M. x 1"M.	1"F. x 1"F.
Ksv	2.8	2.8	4.5	4.5
Art. code	T.137.03	T.137.30	T.137.10	T.137.00
Price €	10.75	14.69	16.75	14.89

Art. T.138 - Linear 3-way valve (A x B x AB) with stainless steel closing rod with vertical stroke 4 mm. - Connection for actuator 30 x 1.5.

Combined with thermostatic actuators: Art. T.130.70.

Combined with electro-thermal actuators: Art. V.058.

Art. code	Connections	Ksv	Price €
T.138.03	3/4"M. x 3/4"M. x 3/4"M.	2.8	17.75
T.138.30	3/4"F. x 3/4"F. x 3/4"F.	2.8	15.50
T.138.10	1"M. x 1"M. x 1"M.	4.5	24.60
T.138.00	1"F. x 1"F. x 1"F.	4.5	19.51

Art. V.058 - Thermoelectric actuator N.C. for the electrical opening and closing of valves from manufacturers specified below.

Can be controlled by room thermostat to individually adjust the temperature in the rooms.

For the voltage transformer Art. T.129 see page 33 (F).

Model	Art. code	Voltage Volts	Price €/Quantity ≥	
			1	25
Without microswitch end of stroke	V.058.01	230V AC	6.36	6.16
	V.058.02	24V AC	12.63	12.23
With microswitch end of stroke	V.058.35	230V AC	20.02	19.39
	V.058.36	24V AC	18.50	17.91

Art. T.130.70 - Thermostatic actuator N.C. by remote control with bulb and capillary length 2000 mm. with ABS valve - Adjustment range: 20°C - 60°C. Bulb Ø 9, length 135 mm. - Connection 30x1.5.

Normally closed. Can be installed on valves Art. V.051, V.052, V.054, T.137, T.138.

Price € 13.75

Art. T.141 - Nickel-plated brass valve, straight, complete with electromechanical actuator (Art. V.058), controllable by a room thermostat. Operating temperature max. 110°C. - 230 V - Absorption 3 W. - 230 V. Absorbing 3W.

Model	Ø D1 x D2	1/2"M. X pipe coupling 1/2"M		3/4"M. Euroconus X pipe coupling 1/2"M

Art. B.050

B.051.90 - Carbon monoxide detector, with audible alarm and relay.

Emits an audible signal and can control a possible closing solenoid valve, extractor, siren etc. White housing. Power supply 230 VAC. Switching contacts, suitable for solenoid valves normally open (N.O.) and normally closed (N.C.).

Price € 109.83

CO

Art. B.051.90

Art. T.004.00 -Carbon dioxide (CO2) presence detector with thermometer.

Dimensions: 115 x 85 x 35 h - Power supply: 230 Vac. Functions of the CO2 detector: detection scale 400 - 5.000 ppm with output relay for any fan or alarm siren. Thermometer functions: temperature measurement 0 - 40°C.

Price € 130.07

CO₂

Gas detector +
thermometer

Art. T.004.00

In order to safeguard your profession, **ANTARES** exclusively sells to individuals who are duly registered in the professional register of the Chamber of Commerce.

Art. B.052.20

Art. B.053

B.052.20 - Gas leak detector unit "GAS CONTROL 4D" for 4 remote sensors specific to different types of gases.

Control unit equipped with relay for the control of any solenoid valve, sirens etc. To be connected to the specific sensors Art. B.053. It can control a solenoid valve, extractor, siren etc. 230 VAC power supply. Changeover contacts suitable for normally open (N.O.) and normally closed (N.C.) solenoid valves.

Price €

B.053 - Remote dislocation gas presence detector for control unit B.052.20.

Model for	Methangas	LPG gas
Art. code	B.053.24	B.053.25
Price €		

Art. B.070

KIT "Guardian" DETECTOR + SOLENOID VALVE

Art. B.070 - "Guardian" - Kit consisting of an explosive gas leak detector (Art. B.038.00) and a gas shut-off valve with manual reset, available in the specified diameters. Art. B.057 (see below). The detector emits an audible alarm in the presence of gas and actuates the solenoid valve for manual closure of the gas flow.

Power supply: 230 VAC - Alarm output: 12 VDC - Pulse signal for any solenoid valve - Reference Art. B.057 (see below). Protection rating: IP42 - Catalytic sensor with alarm threshold: 10% LEL.

Art. code	Diameter Ø	Price €
B.070.02	1/2" (DN15)	
B.070.03	3/4" (DN20)	
B.070.10	1" (DN25)	

Manual reset solenoid valve

Normally closed

Art. B.054

Isolation valves

Item B.054 - Solenoid valve for gas normally closed with manual restart (N.C.).

230V - 50Hz - Mechanical closing in case of power failure. The installation of this solenoid valve is in conjunction with the Art. B.045, B.050, B.051.90 and B.052.20. Manual action is required to reset the solenoid valve. Maximum pressure: 500 mbar.

Alarm sirens

Art. B.058.90

Art. B.058.90 - Alarm siren for thermal power stations and other industrial applications.

High density modulated sound signal. Complete with a 10 W lamp. Power supply: 230 V.

Price € 91.32

Electric ball valve actuator for gas and water

Art. B.060.01

Application on lever-operated ball valves for existing water and gas pipes for automatic closing with gas and water leak detectors

Art. B.060.01 - Actuator motor of ball valves with lever, already existing as well for automatic closing with gas and water leaks detectors.

It can be applied to existing lever ball valves on gas or water pipes and is automatically controlled by gas leak and water leakage detectors. It can be installed without disassembling the pipe, if the closing ball valve is already present. For valves from 1/2" to 3/4" - Operation with voltage: 12 V DC - Can be combined with the gas leak detector Art. B.038.00 on page 46(F).

Price € 31.98

Metallic ignitor with fixing ears – 230 Vac

Art. N.070.40

Art. N.070.40 - Metallic ignitor with fixing ears for pellet and woodchip boilers, stoves and burner.

Diameter 12.5 mm - Length underneath: 103 Total length: 132 - 400 Watt. - 230 Vac. Compatible: ENVIRO FIRE - EDILKAMIN FRANCO-BELGE.

Price € 16.46

Art. N.072.47

Art. N.072.47 - Metallic ignitor with fixing ears for pellet and woodchip boilers, stoves and burner.

Diameter 12.5 mm - Underneath length: 270 Total length 280 470 Watt. - 230 Vac. Compatible: EDILKAMIN.

Price € 19.25

Low-voltage Igniters – 24 Vac

Quartz crystals Igniters

Art. N.117.12

Art. N.117.12 - Quartz crystals ignitor, rectangular-section 10.8 x 4 with ceramic fixing flange for pellet and woodchip boilers, stoves and burners. Low voltage: 24 Vac.

Underneath length: 90
Total length: 122 - 150 Watt

Price € 28.45

Art. N.118.90

Art. N.118.90 - Quartz crystals ignitor, round-section diam. 35 with ceramic fixing flange for pellet and woodchip for boilers, stoves and burners. Low voltage: 24 Vac.

Underneath length: 30
Total length: 65 - 90 Watt.

Price € 48.70

Customised Igniters

FERROLI

Art. N.081.35

Art. N.081.35 - Metallic ignitor with conveyor FERROLI compatible diam. 9.9/18 for pellet and woodchip boilers, stoves and burners.

Underneath length: 185/200 - Total length: 190/205 - 350 Watt. 230 Vac.

Price € 43.25

Accessories and spare parts for Igniters

Guide to motor gear configuration and choice

Definitions for the correct model choice

► Layout of the mounting holes of the standardised models:

TYPE "A" MOUNTING - Compatible with: BCZ, KENTA, MELLOR, MK, and others

- Center distance between the 2 mounting holes: 63.5 mm
- 2 concentric holes on the drive shaft with M6 x 1 thread

TYPE "B" MOUNTING - Compatible with: BCZ - KENTA - MELLOR - MK - and others.

- Center distance between the 6 mounting holes **60.3**
- No. 4 holes with M5 x 0.8 thread

Configuration of the position of the motor and of the drive shaft:

The rotation direction of the shaft should always be considered when looking at the gear from the side opposite the motor.

► Shaft type determination:

- Extended flat shaft

- Extended shaft with double flat

- Extended flat shaft with key

- Through hole

► Technical dimensional features:

- RPM (revolutions per minute)
- Torque or force unit of measurement in Nm.
- Motor stack thickness expressed in mm

► Equipment:

the gear motor can be supplied with and without encoder with 3-pole connector

For information on products, you can text us and send us pictures on Whatsapp.

Standardized Series – FERGAS

Art. N.601

Art. N.601 - FERGAS tangential fan for high-temperature, rotation by reversible motor. Voltage 230V 50 Hz. - Particularly suitable for large air flows and very low noise level.

Centrifugal fans for biomass systems

Models without flange

Art. R.256.27

Art. N.640

Art. N.643.00

Art. R.256.27 - Centrifugal fan with air vent 60 x 60.

Diam. fan: 108 – Motor position: left. 230 Vac, 60 W.

Price € 27.32

Art. N.640 - Centrifugal fan EMMEVI - FERGAS Type CFA-DA with air vent 108 x 50.

Flow rate 195 m³/h - 230 Vac – Without frame. Motor position: right. Measures: 132 x 136 x 108. Compatible: EBM PAPST – TRIAL and others. Used by: NORDICA, CADEL, PALAZZETTI, SICALOR, EDILKAMIN, MCZ, COLA, MONTEGRAPPA and others.

Art. code	Power W	Reference code	Price €
N.640.01	54	CFA-DA 80x83-25	36.97
N.640.02	114	CFA-DA 80x83-35	74.15

Art. N.643.00 - Centrifugal fan, double aspiration TRIAL type CAD 12R-001 with air vent 146 x 63.3.

Flow rate 400 m³/h - 230 Vac - Power 85 W – Without frame. Measures: 156 x 169 x 162. Compatible: EBM PAPST and others. Used by: NORDICA, CADEL, PALAZZETTI, SICALOR, EDILKAMIN, MCZ, COLA, EVACALOR, RAVELLI, ROYAL, MONTEGRAPPA and others.

Price € 62.57

Art. N.644.01

Art. N.644.01 - Centrifugal fan FANDIS type 2GDS15 120X126 without flange, with air vent 126 x 65.

Compatible: EBM PAPST D2E120 - Measures: 160 x 160 x 146 Voltage: 230 Vac, 101-114 W. Air flow rate: 390 m³/h. Used by: NORDICA, EDILKAMIN, CADEL, SICALOR, PALA, MCZ, COLA, EVACALOR, RAVELLI.

Price € 103.57

Art. N.646.02

Art. N.646.02 - Double centrifugal fan with double aspiration FERGAS type CFD-DA 80 x 83 with air vent 2 x 108 x 50.

Air flow rate: 450 m³/h Voltage 230 Vac, 130 W – Shaft with bearings. Measures: 310 x 137 – Used by: IRIS, RAVELLI, EDILKAMIN, PRISMA, SICALOR, ECOFOREST, ITALIANA CAMINI

Price € 59.66

TRIAL

Art. N.645.01

Art. N.642.01 - Centrifugal fan FERGAS - EMMEVI with flange type CF 100 - 35, with air vent outlet 71 x 58.

Measures: 180 X 161 X 167.

Voltage: 230 Vac, 80 W - Air flow rate: 220 m³/h.

Price € 63.15

Art. N.645.01 - Centrifugal fan TRIAL with flange 97 x 55 tipo CAA10Y-001, external air vent outlet 96 x 82.

Voltage: 230 Vac, 56 W - Air flow rate: 190 m³/h.

Price € 38.74

FERGAS

Art. N.648.01

Art. N.648.01 - Centrifugal fan FERGAS - EMMEVI with flange type CF 70 - 20, with air vent outlet 41.5 x 55.

Measures: 125.7 X 117.5 X 102.7.

Voltage: 230 Vac - 28 W - Air flow rate: 65 m³/h.

Price € 25.08

NATALINI SIT

Art. N.649.01

Art. N.649.01 - Centrifugal fan NATALINI - SIT GROUP type GT500CE01 - W935050011 for pellet stove. Total length: 210 mm. - Air vent dimension: 160 x 92 mm. Flow rate: 480 m³/h Voltage: 230 Vac, 100 W.

Replaces the (out of production) fan GL27DT022 - W93427022

Compatible with the following stoves:

- DEVILLE Ref. D0026732 mod. Armen - Cordouan - Frehel - Penlan - Penmen.
- DEVILLE Ref. D0026605 mod. Kermovan
- PUROS Ref. RI.0030 - NTL45 mod. Minimaya - Maya - Truciolo - Miditruciolo - Supertruciolo - Grazia - Graziosa - Graziosa Ceramica - Ecoviola - Ecolaura.

Price € 74.73

Control boards for biomass combustion system

Control boards MICRONOVA

Art. N.351.01

Art. N.353.01

Art. N.355.01

Art. N.361.01

Art. N.362.01

Art. N.363.01

Art. N.370.10

To protect your professional activity, **ANTARES** sells exclusively to businesses registered with the Chambers of Commerce.

Art. N.351.01 - Control boards MICRONOVA type I023_6 for biomass stoves and boilers

COMPATIBLE: ECO SPAR, BURNIT, ARCE, CADEL, CLAM, ECOTECK, KARMEK ONE, QLIMA, RAVELLI.

Price € 97.59

Art. N.353.01 - Control boards MICRONOVA type PL023 for pellet stoves ARIA and IDRO.

Compatible: ANSELMO COLA, CADEL (ref. 41451200500), CLAM (ref.05011441), ECOTECK (ref. 55230 -55300), MORETTI (ref. PL023A51), RAVELLI (ref. 55230 -55300).

Price € 108.85

Art. N.355.01 - Control boards MICRONOVA type I050_A01 for pellet stoves.

COMPATIBLE: DEVILLE, CADEL, ECOTECK, EMAFLAM, KARMEK, RAVELLI, SICLOR, VULCANIA, PIAZZETTA.

Price € 75.07

Art. N.361.01 - Control boards MICRONOVA type I055 for pellet stoves.

Extension box for thermoregulators I023_6 for models Idro for the control of 3-way valve, domestic water heat exchanger, mechanical cleaner etc. Compatible: ANSELMO COLA, ARCE, CADEL, ECOTECK, EDILKAMIN, RAVELLI

Price € 15.01

Art. N.362.01 - Led display keybox MICRONOVA type PC025_A07. Embedding: 164 x 46 x 18 mm – Frontal panel: 170 x 53 x 24 mm.

Connected via a flat cable to the C023 control boxes, it allows, through the 6 keys, the programming of the operating parameters and the display of the functions of the electronic thermoregulation box. Compatible with: ARCE (ref. 1611907650), BIASI (ref. BI2355 100), CADEL (ref. COM0266 – 41451303300), DEVILLE (ref. D0026578), ECOTECK (ref. 55080), RAVELLI (ref. 55080), UNGARO (ref. CP00080), ROYAL.

Price € 42.79

Art. N.363.01 - Led display keybox MICRONOVA type PF047_D001 Measures: 160 x 50 x 23 mm.

Connected via a flat cable to the C023 control boxes, it allows the programming of the operating parameters and the display of the functions of the electronic thermoregulation box.

Compatible: LAMINOX, ANSELMO COLA, ARCE, CADEL, QLIMA, RAVELLI

Price € 52.55

Art. N.370.10 - 16-poles flat cable MICRONOVA for thermoregulators. Length: 1.20 mt.

Price € 6.10

Art. N.365.01 - Air flow-meter MICRONOVA type PK063.

Also called an air flow sensor, it is used in pellet stoves to measure the incoming combustion air in order to optimize combustion. Supplied without cable. Used by: DAL ZOTTO, EDILKAMIN, FERROLI, KARMEK, LAMINOX, NORDICA EXTRAFLAME.

Price € 13.59

Art. N.371.10 - Connecting cable for air flow-meter Art. N.365.01 MICRONOVA.

Cable length: 0.5 mt. – 4-poles Molex connector.

Price € 2.73

Air flow sensor – MAF – Meter Air Flow

Flue systems components for biomass

Art. N.400

Flue pipes in black varnished stainless steel with assembly components. Single wall

Socket fit system. Thickness of wall 0.4 mm. Components complete of siliconged seal. Supplied for usage of smoke system even in positive pressure **P1**.

APPLICATIONS Evacuation fumes from stove, pellet and biomass boilers for dry function in positive pressure **P1** with seal, and in negative pressure **N1** without seal.

DESIGNATED REGULATION OF PRODUCT ACCORDING TO UNI EN 1856/2/2009

- With seal in positive pressure: T200 P1 W V2 L50040 - 0/50/M
- Without seal in negative pressure: T600 N1 W V2 L50040 - G

Pressure level and working temp.

- with seal in positive pressure **P1** (when combustion is assisted by fan): max 200°C.
Note: install the seal when the pressure in the pipeline is superior to 40 Pascal.
- Without seal in negative pressure **N1**: max 600°C.
Note: remove seal if function is with natural suction or the pressure in the pipeline is less than 40 Pascal, although without compromising the function one could detect unpleasant odours in first few hours of functioning.

Art. N.400 - Straight smoke shaft in black varnished stainless steel single wall thickness 0.4 mm, with socket-fit, supplied with silicong seal also for positive pressure use **P1**.

Art. N.440

Polypropylene PP with modular components single wall.

Graft coupling. Wall thickness 2mm. Component complete with silicic seal also for positive pressure use P1.

APPLICATION: evacuation fumes generated from condensation boilers or from any other type of gas or liquid heat generator where the maximum temperature guaranteed by the combustion products is not superior to 120°C. Can be used for kitchen shafts or air ducts for air expulsion, never over 120°C.

DESIGNATED LEGISLATION:

- Description: single wall shaft rigid
- Type of material: translucent polypropylene self extinguishing
- Reference standards: EN 14471
- Temperature level: T.120
- Pressure level: P1
- Fire resistance from within : 0
- Resistance to condensation: W
- Resistance to corrosion: 2
- Seal gasket: Elastomer in EPDM 140°C.

Art. N.440 - Straight flue pipe single wall in rigid polypropylene PP translucent white self-extinguishing with socket fit M.F. fitted and supplied with EPDM gasket

Ducted shafts for condensaton boilers

Art. N.455

NOVELTY

Conceived for adjusting the smoke shaft when replacing an old boiler with a condensation boiler. It is sufficient to insert the "Condensing pipe" inside the structure of the wall shaft of the old boiler.

Every meter contains n.1 male and n.3 females (minimum waste). Bayonet type locking system (Ø 60 - 80).

Art. N.455 - Coil of flexible chimney shaft "Condensing Pipe" in white polypropylene PP for condensing boilers, cooker hoods access and extraction air shafts with temperatures not above 120 °C.

Legislation reference: EN14471 - Pressure level P1 - Resistance to condensation: W - resistance to corrosion: 1/2 - Seal gasket EPDM black

Cleaning supplies for boilers and stoves

Art. F.627.00

Art.F.628.02

Art. F.627.00 - Pack of n. 2 brushes, mm. 90 x 170 x 15 thick, for cleaning the exchanger and wall boilers

Price € 0.87

Art. F.628.02 - Pack of n. 2 rolls of woven paper for cleaning.

Characteristics of each roll: Height 260 mm. - Length 250 meters - Weight Kg. 3.00 x 2 - Tears for roll 715 - Tear length 350 mm.

Price € 22.93

Art. F.415.00

Art. F.425.05

Art. F.415.00 - 400 ml spray can. of flame cleaner, suitable for cleaning boiler exchangers.

Price € 6.32

Art. F.425.05 - 5 Kg. container of detergent "Termonet" descaler for boiler combustion chambers.

Concentrated product, designed to easily remove soot deposits and non-combustible scale from the heat exchange surfaces of boilers.

Price € 22.56

Art. F.426.20

Art. F.429.75

Art. F.426.20 - Pack of 200 g. of powdered mix rods to disgregate soot and unflammable deposits.

Suitable for all types of liquid fuel boilers (diesel, naphtha, kerosene, fuel oil) and solid (wood, coal, pellets). Removes corrosive scale and oxides improving combustion and boiler efficiency, acting in the most inaccessible points of the combustion chamber during operation.

Price € 9.07

Art. F.429.75 - Degreaser cleaner sprayer for windows of fireplaces, ovens and cooktops.

Dissolves and removes without scrubbing carbon and soot residues from surfaces such as glass of fireplaces, barbecues, ovens and cooktops. Bottle with sprayer 750 ml.

Price € 5.70

Oil burners for small flow rates

Price
€ 388.93

Art. R.404

Basics on function.

High pressure mechanical pulverization, assures silence and comfort, even in domestic environments..

High-efficiency.

This is assured by the special combustion head, easily adjustable, even whilst functioning, guarantees a perfect combustion, without smoke or unburnt residue in compliance with european law 615 against environmental pollution.

Automatic function.

Controlled by electronic apparatus of high quality, conforming to european leg. VDE and DIN 4787, this allows pre-ventilation, as well as before and after ignition.

Art. R.404 - Fully automatic single-flame diesel burner type BLACK with automatic air opening and closing. For normal or semi-pressurised fireplaces.

230 V - 50 Hz - Supplied without nozzle - for the nozzle see Art. R.040 and R.041 on page 188(F).

Temperature probes for solar systems

Art. T.210.00 - Temperature probes for solar panels Pt 1000Cl. B EN60751

Stainless steel tube sensor 6x50mm - Grey silicone cable Length: 1000mm.
Terminations with pre-insulated tips. Temperature range -50 / + 180 ° C

Price € 7.17

Art. T.224.00 - Temperature probes for solar panels Pt 100

Stainless steel tube sensor 6x50mm - Length: 2000mm.
Temperature range -30/+150°C

Price € 1.75

Art. N.142.47 - Waterproof air and water probe type NTC 47K with cylindrical bulb in TPE 5 x 20mm.

Operating temperature: -40 °C/+110 °C. Capsule length: 20 mm.
Diameter: 5 mm. Cable type: round, double insulated in TPE - Length: 1 m.

Price € 3.91

Temperature probes for thermostats and thermoregulators

Temperature probes

Art. T.223 - Temperature probe normally used for floor heating systems. Complete with 3 mt of cable. Can be connected to thermostats Art. T.420. It can also be used to measure the temperature of the pipes, room temperature and outside temperatures.

Type NTC 25° = 10K - Diameter Ø 7 mm. Adjustment range : -9.5°C / 99.5°C

Type	Soft cable	Hard cable, suitable for inserting in underfloor sheaths
Art. code	T.223.00	T.223.03
Price €	3.78	4.59

Art. N.142.47 - Waterproof air and water probe type NTC 47K with cylindrical bulb in TPE 5 x 20mm.

Operating temperature: -40°/+110 °C. Capsule length: 20 mm. Diameter: 5 mm. Cable type: TPE double insulated round - Length: 1 mt.

Price € 3.91

Art. N.143.01 - NTC type 10K epoxy drop air probe in PVC.

Operating temperature: -30°/+105°C. Capsule length: 5 mm. Diameter: 3 mm. Cable type: PVC HT 105° - Length: 1 mt.

Price € 2.01

Art. N.145.02 - Air probe type NTC 10K with bulb in TPE 6 x 5 x 15 mm.

Operating temperature: -50°/+120°C. Capsule length: 15 mm. Diameter: 6 x 5. Cable type: TPE plate - Length: 1 mt.

Price € 2.25

Art. N.146.04 - Waterproof air probe type NTC 10K with cylindrical bulb in TPE 5 x 20 mm.

Operating temperature: -50°/+110°C. Capsule length: 20 mm. Diameter: 5 mm. Cable type: round double-insulated TPE - Length: 1 mt.

Price € 2.74

Art. N.147.01 - Probe for fume control type NTC 1K 300°C with fixing flange 20 + 20 mm.

Operating temperature: 0°/+300°C. Capsule length: 40 mm. Diameter: 4 mm. Cable type: Teflon - Length: 200 mm.

Price € 3.45

Art. N.149.03 - Probe for fume control type NTC 1K 300°C with fixing flange 11 mm. and protective sheath, with stainless steel bulb.

Operating temperature: 0°/+300°C. Capsule length: 11 mm. Diameter: 4 mm. Length: 1 m.

Price € 7.30

Art. N.150 - Temperature thermocouple type "J" with stainless steel tube and cable "Vetrotex".

Operating temperature: 0°/+350°C.

Gas solenoid valve

Art. R.260

Art. R.262

Art. R.260 - Gas solenoid valve normally closed. Quick opening/closing with connector.

Approved Level A - DVGW and EEC - Max pressure: 200 mbar - 230V.

Art. code	Diameter	Price €
R.260.08	3/8" F.	61.46
R.260.02	1/2" F.	59.23

Art. R.262 - Gas solenoid valve normally closed. Quick opening/closing.

Approved Class A - EEC - With flow regulator - 230 V.

Diameter F-F.	1/2"	3/4"	1"	1 1/4"	1 1/2"	2"
Max. Preassure mbar	360	360	200	200	200	200
Art. code	R.262.02	R.262.03	R.262.10	R.262.14	R.262.12	R.262.20
Price €	96.87	125.19	125.43	264.19	265.62	368.46

Art. R.270 - Gas solenoid valve normally closed. Slow opening and fast closing "DUNGS" type MVDLE, approved DIN - DVGW.

Complete with flow rate controller - 230 V - 50 Hz.

Complete with flow rate controller - 200 V - 50 Hz.				
Max. Pressure mbar	360		200	
Diameter	3/4"	1"	1 1/2"	2"
Type	207	210	215	220
Art. code	R.270.03	R.270.10	R.270.12	R.270.20
Price €	334.99	365.42	427.11	514.54

Art. R.275 - Electromagnetic coil for solenoid valve "DUNGS" in execution IP 54 - 230 VAC.

Solenoid valve diameter	3/4" e 1"	1 1/2"	2"
Type	200	280	300
Art. code	R.275.10	R.275.12	R.275.20
Price €	197.15	258.51	277.90

Art. R.270

Art. R.275

For gas solenoid valves with manual reset please see Art. B.054 - B.055 on page 53 (F)

Thermocouples

Art. R.509 - Thermocouples for boilers and water heaters with connection fitting M 7/16"-27NS for joint and connector "ASA 11/32". Joint type "HONEYWELL".

Art. code	Lenght "L" mm.	Price €/quantity ≥		
		1	10	50
R.509.45	450	2.51	2.29	2.19
R.509.60	600	2.98	2.72	2.60
R.509.90	900	3.81	3.49	3.32

For installation with different fittings see adaptors on page 118 (F).

General Characteristics

- Switch-on time ≤ 6" sec.
- Switch-off time 30-60 sec
- Max temperature 600°C.
- Minimum bending range ≥ 15 mm.

Art. R.501 - Thermocouple for electrostatic gas valve with unified joint and connection fitting 11/32" (ASA).

Art. code	Lenght "L" mm.	Price €/quantity ≥	
		1	10
R.501.22	225	1.76	1.60
R.501.50	500	1.74	1.60
R.501.90	900	3.05	2.80
R.501.12	1200	3.03	2.78

For installation with different fittings see adaptors on page 118 (F).

Art. R.502 - Thermocouple for electrostatic gas valve with unified joint and connection fitting.

Universal thermocouple tester

Art. F.760.00

Art. F.760.00 - Universal thermocouple tester for gas boilers "TESTELEMET".

This device allows for the controlling of the performance and condition of all types of thermocouples for boilers and gas cookers. It works without external power supply and is suitable also for intercepted thermocouples. Complete with milled adaptor for different threading and alligator clips to allow for the testing of all types of thermocouples.

Price € 61.08

Split-wire thermocouple

Art. R.571.00

JUNKERS-BOSCH

Art. R.572.01

Art. R.532.90 - Super universal thermocouple. Length 900 mm.

It is suitable for "Honeywell" pilot burners and also for most manufacturers (boilers, water heaters, stoves): Robertshaw - Sit - White Rogers - Junkers - Control Co. CC/AP - General Control.

Purchase quantity ≥	1	10	50
Price €	3.81	3.49	3.32

Art. R.535.90 - Universal thermocouple. Length 900 mm. Unified joint.

Complete with the necessary connections for fixing the thermocouple on pilot flame and gas valves: Junkers - Sit - Catoba - Honeywell - Control Co. - White Rogers.

Purchase quantity ≥	1	10	50
Price €	3.60	3.28	3.13

Art. R.571.00 - Shut-off thermocouple for boilers and water heaters compatible with "CHAFFOTEAUX ET MAURY". With ring terminals.

Purchase quantity ≥	1	10	50
Price €	8.18	7.78	7.39

Art. R.572.01 - Thermocouple split-wire compatible for boilers and water heaters "JUNKERS-BOSCH".

Length of sensitive element section: 1.200 mm.

Length of the valve connection section: 1.100 mm.

Purchase quantity ≥	1	10	50
Price €	14.22	13.53	12.86

Art. R.573.01 - Split-wire standard thermocouple for boilers and water heaters. Length mm L1 x L2 = 800 x 830.

With joint fixing coupler M10 x 1M with milled double cone.. Complete with valve fittings: 11/32" (ASA)- M9 x 1 - M10 x 1. Complete with lugs for connection to the thermostat: 2 Faston 6.3 x 0.8 - 2 eyelet cable Ø 3.7. Suitable for replacement on various devices.

Purchase quantity ≥	1	10	50
Price €	5.37	4.91	4.67

Art. R.584.00 - Split-wire thermocouple compatible with "TERMET" (Reference 370.22.02.00). Connection M. 8 x 1.

Thermocouple length: 280 mm. - Without thermostat - For the thermostat see Art. R.198 on page 35 (F) or page 174 (F).

Dimension model 315 x 75 parallel flow

With coplanar threaded connections

Art. S.008

Art. S.008 - Instant heat exchanger "AlfaMax" with brazed stainless steel plates AISI 304, large flow rates, parallel flow. Connections M.

- Exchange surface for each plate: $0.023 \text{ m}^2 \times \text{number of plates} - 2$.
- Water capacity per channel: $0.04 \text{ lt.} \times \text{number of plates} - 1$ - Max. pressure 30 bar.

Model with co-planar fittings: $2 \times 3/4" \text{ M} + 2 \times 3/4" \text{ M}$.

S.008.72	32	0.64	32	75	2.90	2.7	2.88	2.7	94.01
S.008.80	40	0.87	40	95	3.56	2.9	3.53	2.8	111.26

Especially suited for:

- Domestic hot water production
- De-coupling between closed circuit and open circuit: (solid fuels with open circuit, gas and diesel with closed circuit)
- De-coupling on old system's dirty circuits with the replacement of a new boiler.

Important: the data is explanatory, the KW value is in relation with Δt (difference between inlet and outlet temperature of primary and secondary circuit). The essential value for the choice of a heat exchanger is the entity of the thermal exchange surface.

With quick coplanar connections

Dimensional model 315x75

Art. S.080.22

Art. S.080.22 - Stainless steel heat exchanger, 22-plate cross-flow compatible for IMMERGAS MAIOR 24/28/32 kW boilers. Dimensional model 190 × 75. Stud connection center distance: 154 mm.

Outlet holes of the circuits with rim Ø 11-14.

Price € 33.60

Art. S.081.79

Art. S.081.79 - Stainless steel plate heat exchanger compatible for IMMERGAS NIKE/EOLO, 24 MAIOR, NIKE/EOLO 24 EXTRA and NIKE/EOLO 24 SUPERIOR boilers. With quick connections.

No. of Plates: 19 - Reference code. IMMERGAS: 3.012737.

Price € 65.12

LAMINOX

Art. S.004

Art. S.004 - 'AlfaMax' instantaneous brazed stainless steel plate heat exchanger, type XS 208 × 75. Threaded connections, compatible for LAMINOX (and other brands)

For equipping boilers with domestic hot water production. Max. pressure: 10 bar. The absorption data below are calculated based on the following temperatures: primary circuit 80/60 °C – secondary circuit 15/50 °C.

WORCHESTER - BOSCH

Art. S.011.04

Art. S.011.04 – “AlfaMax” instantaneous heat exchanger, XS type 315 × 75 mm, brazed stainless steel plate heat exchanger with quick-connect stud fittings. As replacement part for boilers. Compatible with WORCESTER - BOSCH boilers (and other brands).

Art. code	No. of Plates	Thickness “E” mm.	Compatible	Price €
S.011.04	14	38.5	JUNKERS - BOSCH - WORCESTER ref. 87161066850	48.36

Note: See here for products associated with the BOSCH - BUDERUS - ELM LEBLANC - ROCA brands.

For gaskets and O-rings for heat exchangers, see **page 172 (W)** and **page 125 (F)**.

N.B.

Model dimensions 286 x 112

SPECIFICALLY SUITABLE:
for hydraulic circuit separation, for coupling an open circuit (solid fuel systems) with a closed circuit (gas-diesel systems).

Art. S.009

Art. S.009 - "AlfaMax" instantaneous heat exchanger, made of AISI 304 brazed stainless steel plates, designed for high flow rates with parallel flow configuration. Connections: 1" M.

- Heat exchange surface per plate: $0.027 \text{ m}^2 \times (\text{number of plates} - 2)$.
- Water content per channel: $0.05 \text{ L} \times (\text{number of plates} - 1)$ - Maximum pressure: 30 bar.

Art. Code	No. of Plates	Heat Exchange Surface (m ²)	Power KW	Primary (Water 80/70°C)		Secondary (Water 60/70°C)		Price €
				Flow rate m ³ /h	Pressure drop m H ₂ O	Flow rate m ³ /h	Pressure drop m H ₂ O	
S.009.20	20	0.49	25	2.00	2.3	2.00	1.9	115.25
S.009.30	30	0.76	35	3.20	2.6	3.20	2.3	147.82
S.009.40	40	1.03	45	4.30	2.7	4.30	2.5	180.38

Important: the data provided are for guidance only. The kW value is related to the ΔT (temperature difference between inlet and outlet of both the primary and secondary circuits). The key parameter for selecting the heat exchanger is the magnitude of the heat exchange surface area.

Model dimensions 390 x 200

SPECIFICALLY SUITABLE:
Biomass systems - AISI 304
Pool heating systems - AISI 316

Art. S.010

Art. S.010 - "AlfaMax" instantaneous heat exchanger, brazed stainless steel plate type, designed for high flow rates with parallel flow configuration. Connections: 1 1/4" M.

- Heat exchange surface per plate: $0.063 \text{ m}^2 \times (\text{number of plates} - 2)$.
- Water content per channel: $0.15 \text{ L} \times (\text{number of plates} - 1)$ - Maximum pressure: 30 bar.
- Specifically suitable for coupling open circuits (solid fuel boilers) with closed circuits (AISI 304 stainless steel version) and for swimming pool heating (AISI 316 stainless steel version).

HYDRAULIC SCHEME FOR DECOUPLING A CLOSED CIRCUIT FROM AN OPEN CIRCUIT

Note: thermostat (T) can switch on pump 2 and pump 3 and exclude the boiler and pump 1.

- Closed expansion vessel
- Open expansion vessel (solid fuel)
- Circulator pump
- One-way valve
- Anti-condensation thermostat at 50°C

Our technical department is at your disposal for any further information.

System hydraulic decoupler for connecting an old installation with a new boilers

When an existing heating system is old, over time it accumulates a significant amount of dirt in the form of sludge and sand, generated by the crystallisation of minerals contained in the water. This sludge is extremely harmful to the operation of a new boiler and may compromise its performance and service life. When replacing an old boiler with a new one, it is advisable to install a circuit decoupling separator, which isolates the boiler circuit from the installation circuit. The existing system must therefore remain equipped with its expansion vessel and safety valve. To facilitate this operation, ANTARES has developed a compact "SEPACIR" separator in the form of a small cabinet, specifically designed to be installed under wall-hung boilers in two versions:

- **Complete:** with expansion vessel (dimensions: see model dimensional drawings below).
- **Low-profile:** without expansion vessel, to be installed elsewhere, above the existing boiler via suitable piping, or in another location (dimensions: H = 604 mm - D = 379 mm).

Although very compact, the product can also be installed in alternative positions.

Art. E.670.0-

Dimensions

Art. E.670 – "SEPACIR" hydraulic circuit decoupling separator with covering sheath. Connections: 3/4" for heating and 1/2" for circuit supply.

Composed of the following components:

- Stainless steel plate heat exchanger;
- Circulating pump (6 m head), energy level "A";
- Expansion vessel, integrated or external, supplied;
- 3-bar safety valve;
- Capillary pressure gauge;
- Circuit supply tap;
- No. 4 shut-off ball valves;
- Optional dirt separator as an accessory;
- Automatic air vent;
- No. 4 extendable 3/4" stainless steel flexible hoses for boiler connection;
- No. 1 extendable 1/2" stainless steel flexible hose for supply connection.

Dirt separators

THE IMPORTANCE OF THE DIRT SEPARATOR IN HEATING SYSTEMS

Once water is introduced into the system, its mineral content crystallises in the form of sludge and deposits, which are harmful to the boiler, heat emitters, and piping. Removing this sludge is essential for the proper operation and service life of these components. ANTARES sludge separators, with centrifugal and magnetic action, MAGDIRTY and DEPDIRTY, are devices designed to remove debris and dirt from the heat transfer fluid circulating within heating systems.

They allow the collection of impurities, including ferrous particles, thanks to the presence of a powerful magnet, preventing the onset of corrosive phenomena. Small particles are separated from the circulating fluid through magnetic and centrifugal forces. The collected debris is deposited in a tank that can be emptied without dismantling the device.

Flue fans with round outlets Ø 60 mm with hooks on suction

Art. R.254.47

Dimensions

Art. R.254.47 - Flue fan for boilers with round outlet Ø 60 mm, motor position RIGHT, with fastening hooks on the suction and outer flange, with pressure connection - Voltage: 230 V - 50 Hz

Compatible with various brands of boilers. Check the compatibility of replacement with the diameter of the mouth outlet, the outer diameter of the fan. Compatible FIME - NATALINI and EBM-PAPST.
For lengthening fittings outlet see **page 150 (F)**.

Three way hydraulic valves and spares

Giannoni

Art. R.235

Primary circuit connections:
1 M. x 3/4" M. x 3/4" M.

Looking from above finding the three way type

* = Direct flow to instant heater

• For the old version from 1 1/4" M. (x 3/4" M. x 3/4" M.)

Use the conversion ring

Art. G.151.14 on page 57(W).

Connections of the secondary circuit (domestic) 1/2" M x 1/2" M. positioned at various angles with rotation.

Art. R.235 - 3-WAY pressure switch valve 'GIANNONI'.

To convert combi-boilers used only for heating to a domestic hot water producer with instant water heating. With 2 microswitches.

Ignition transformers

High Voltage Connections

Cable Ø 7 and Ø 4 - Faston

Faston Ø 6
Art. R.091.00

Art. R.079.00

Art. R.076.01

Art. R.076.01 - Ignition transformer Brahma type TSC1.

Capacitive discharge igniter for burners atmospheric gas.
230 Vac power supply with Fast-On 6.3 x 0.8
Output: 20kV with 2.8 x 0.5 Fast-On

Price € 15.20

Art. R.077.01

Art. R.077.01 - Brahma ignition transformer, TSM type.

Capacitive discharge igniter designed for premixed gas burners in condensing boilers.
Power supply: 230 VAC with 3-pin Stelvio connector.
Output: 15 kV with Fast-On 2.8 x 0.5.

Price € 12.46

Art. R.079.00 - Ignition transformer for boilers and gas cookers.

Primary: 230 V - 0.7 VA - Faston terminals 2.8 x 0.8.
Duty cycle: 30%.

Price € 5.41

Art. R.078.00

Art. R.080

Art. R.083.30

Art. R.085.00

Art. R.071.00

Art. R.072.00

Art. R.078.00 - Brahma remote ignition transformer type TR2 / A C53TC CAT30T4PS R2K7 H for atmospheric burners.

Output voltage: 18 kV – Power consumption: 2.5 VA. Supplied with 53 cm power cable with crocodile clip terminal and 30 cm high-voltage silicone cable with Ø 4 mm cylindrical female terminal, with radio interference suppression.

Quantity $\geq$	1	10
Price €	19.87	19.08

Art. R.080 – COMPACT-type ignition transformer for burners.

Complete with 4 Faston connectors for connection to 7 high-voltage cables and 450 mm power supply cable.
Primary: 230 V.

Art. codice	High-voltage output (V)	Type	Duty cycle	A	Price/ Quantity ≥

**Art. R.083.30 – “Danfoss” ignition transformer, EBI 4 type 052F4030.
Compatible with obsolete model 052F0030.**

Primary: 230 V – Secondary: 15 kV – 40 mA.

Connections: $2 \times \varnothing 4$ mm. – Duty cycle over 3 min: 33%.

Quantity $\geq$	1	10
Price €	49.86	48.28

Art. R.085.00 – “BRAHMA” ignition transformer for burners, T 14/T type, complete with high-voltage cables.

Power cable length: 500 mm – Primary: 230 V.

Secondary voltage: $2 \times 4500 \text{ V}$ – Primary current: 1.3 A.

Duty cycle: 4 min at 25%.

Price € 102.43

Art. R.071.00 – “Brahma” ignition transformer for burners, T13/M type.

Power supply cable length: 550 mm. Primary: 230 V.

Output: 1 × 8 kV – 16 mA. Duty cycle: 100%.

Price € 117.24

Art. R.072.00 – “Brahma” ignition transformer for burners, T16/M type.

Power supply cable length: 550 mm. Primary: 230 V.

Output: $2 \times 5 \text{ kV} - 20 \text{ mA}$. Duty cycle: 3 min at 33%.

Price € 131.20

Art. R.073.00

Art. R.073.00 - "BRAHMA" burners ignition transformer type T17/M.

Power supply cable length 550 mm.

Primary: 230 V.

Outlet: 2 x 4 kV - 16 mA.

Duty cycle: 100%

Price € 133.13

Art. R.074.00

Art. R.074.00 - "BRAHMA" burners ignition transformer type T18.

Power supply cable length 550 mm.

Primary: 230 V.

Outlet: 2 x 4.5 kV - 16 mA.

Duty cycle: 100%

Price € 155.08

Art. R.086.00

Art. R.086.00 - "Brahma" ignition transformer for burners, T8 type, 13 kV.

Power supply cable length: 500 mm.

Primary: 230 V.

Output: 2 x 6.5 kV - 35 mA. High-voltage connection: type "A".

Duty cycle: 3 min at 33%.

Price € 64.59

Art. R.087

Mod. T./M

Mod. T./N

Art. R.087 - "Brahma" ignition transformer for burners, T11 type.

Power supply cable length: 500 mm. - Primary: 230 V.

Secondary voltage: 1 x 9.000 V - Primary current: 1.1 A.

High-voltage connection: type "A". Duty cycle: 3 min at 33%.

Adhesive tapes

Electrical insulating tapes

Art.F.650

Self-amalgamating

Art.F.654.00

Art. F.650 – Pack of 10 rolls of self-adhesive insulating tape. Thickness: 0.13 mm – Width: 15 mm – Length: 10 m.

Colour	Black	White	Blue	Grey
Art. code	F.650.01	F.650.02	F.650.03	F.650.04
Price €	2.51	2.51	2.51	2.51

Colour	Red	Brown	Ground: yellow/ green
Art. code	F.650.05	F.650.06	F.650.07
Price €	2.51	2.63	2.63

Sealing tapes

Art.F.660

Art. F.654.00 - Roll of self-amalgamating adhesive insulating tape. Thickness: 0.75 mm – Width: 19 mm – Length: 10 m.

Price € 13.21

Art. F.660 - Roll of adhesive aluminium tape suitable for sealing flues avoiding smoke dispersion and carbon monoxide exhalations in aerating shafts and other uses. Length 50 mt. Excellent mechanical resistance. Thickness 0.4 mm Max. temp. 400°C.

Art. code	Color	Width mm	Price €
F.660.02	Aluminium	25	9.91
F.660.04	Aluminium	50	6.14
F.660.12	Black	25	18.17
F.660.14	Black	50	36.34

Art. F.661.50 – Roll of black fiberglass adhesive tape, impregnated with silicone adhesive, suitable for airtight sealing of flue ducts, preventing smoke leakage and carbon monoxide emissions. Length: 50 m. Excellent mechanical resistance. Thickness: 165 microns. Width: 25 mm. Maximum temperature: 500°C.

Price € 34.83

Gas pipes sealing tapes

Art. F.664.10

Examples

Art. F.664.10 – Self-amalgamating protective tape for pipe sections where the outer coating has been removed to perform the joint. Regulations require these sections to be covered with yellow protective tape.

Width: 25 mm. Thickness: 0.5 mm. Length: mt. 5.

Price € 21.38

Thermic insulation tapes

Art. F.665.33

Art. F.668

Art. F.665.33 – PVC black adhesive tape suitable for minor repairs of the insulating covering of pipes with thermal insulation (Art. E.342 e E.345) during the installation of solar thermal systems. Width mm.19, Thickness: 0.5 mm. , Length mt. 5.

Width mm.19, Thickness: 0.5 mm. , Length mt. 5.

Price € 4.85

Art. F.668 – Black closed-cell, reinforced foam rubber adhesive tape with removable protective film.

Suitable for insulating hot and cold piping, particularly in refrigeration production and distribution systems and air-conditioning installations, for fittings and special components, and where standard tubular insulation cannot be applied. Thickness: 3 mm.

Art. code	F.668.50	
Width	50 mm.	
Length	10 mt.	
Quantity ≥	1	10
Price €	4.50	4.28

Construction sites caution tape

Art. F.670

Art. F.670 – Roll of warning tape for construction sites. Width: 70 mm – Length: 200 m. Made of low-density polyethylene, weather-resistant.

Colour	White / Red	Yellow / Black
Art. code	F.670.01	F.670.02
Price €	3.85	4.33

Electrical components and accessories of general utility

Electrocondensers

Art. E.243.20 - Plastic safety valve with quick connection 20 mm with O-ring hose drain connection 15 - 3 bar.

Quantity ≥	1	10
Price €	2.27	2.16

Coupling Ø 20

**FERROLI
SAUNIER DUVAL
other brands**

Art. E.244

Art. E.244 - Safety valve with quick connection 20 mm with O-ring discharge outlet 1/2" M - 3 bar.

Art. code	Dimensions A mm.	Compatible	Price €/quantity ≥	
			1	10
E.244.02	32	Ferrolti - Saunier Duval - Fagor - other brands	3.44	3.28
E.244.04	37	Gruppi Vergne - other brands	5.42	5.15

Coupling Ø 22

IMMERGAS

Art. E.245.02

Coupling Ø 22

IMMERGAS
Other brands

Art. E.246.02

Coupling Ø 22

IMMERGAS

Art. E.247.02

Art. E.245.02 - safety valve with quick connection 22 mm entrance and exit flanged with thread F 1/2".

Drain pressure 3 bar for IMMERGAS boilers.

Quantity ≥	1	10
Price €	7.98	7.58

Art. E.246.02 - Safety valve with quick connection diam. 22 mm with O-ring, discharge conn. 1/2"F. Discharge pressure 3 bar. Compatible IMMERGAS and other brands.

Quantity ≥	1	10
Price €	5.88	5.59

Art. E.247.02 - Safety valve with quick connection diam. 22, mm, with O-ring, discharge connection with hose Ø 18 - For Immergas.

Quantity ≥	1	10
Price €	10.07	9.75

Art. E.248.02 - Safety valve with quick connection milled entrance for inserting fork and larger female discharge 3/4" (Ø 19.5 mm x 3/4"F).

Discharge pressure: 3 bar - For VAILLANT boilers.

Quantity ≥	1	10
Price €	10.05	9.73

Art. E.030 - Visible nylon drain funnel.

Diameter	3/4" F. x 3/4" F.	1" F. x 1" F.
Art. code	E.030.03	E.030.10
Price €	7.41	10.57

Art. E.032.02 - Pack of 5 brass hose-holder fittings for safety valve drain.

Connection 1/2" M for hose-holder Ø 12.

Price € 6.00

Art. E.034.02 - Pack of 5 brass hose-holder fittings 1/2" M. x Ø 20 for safety valve drain.

Price € 8.41

VAILLANT

Art. E.248.02

Spare head for safety valves

Art. E.028

Art. E.029

Art. E.028 - Spare head for safety valves/hydraulic modules with manual opening.

Suitable for boilers: FERROLI, UNICAL, RADIANT and other brands.

Intervention set	3 bar	6 bar
Art. code	E.028.03	E.028.06
Price €	3.09	3.09

Art. E.029 - Spare head for safety valves/hydraulic modules without manual opening.

Intervention set	3 bar	3.5 bar
Art. code	E.029.22	E.029.35
Price €	3.43	3.11

Expansion vessels for wall boilers

CE

Temp: -10°C ÷ 90°C

Art. E.051

Art. E.051 - CE approved round expansion vessel. Temp. max: -10 ÷ 99°C.

Conform to European standards PED 97/23/CE - Factory-set pressure 1 bar. Max operating pressure: 3 bar. - Connection M. Radial.

Art. D.036 - Multifunctional expansion vessel with interchangeable diaphragm for domestic use.

Conform to European standards PED 97/23/CE Max pressure bar 10.
Connection 1/2" M. Max temp.: -10 ÷ 100°C.

Art. code	Capacity Lt.	Height mm.	Diameter mm.	Price €
D.036.02	2	440	80	38.52
D.036.03	3	560	90	41.95
D.036.04	4	655	90	46.86

Note: In replacement works, the connection fitting may be of a larger size. In such cases, the use of increasing ring adapters is recommended, **Art. G.151 on page 55 (W)**.

For fittings increasing the connection diameter, see **Art. G.151 on page 55 (W)**.

Scale removal liquids and descaling pumps

Art. F.440.10

Art. F.440.30

Art. F.440.10 - Descaling pump "INCLEAN" completely in plastic, fitted in a stable way on a 18 lt tank with a special anti corrosive cap. The cap contains pipes and cables making the pump compact, easy to handle and move. Suitable for the descaling of boiler coils and heat exchangers. It is fitted with a flow inverter in order to attack scaling in both directions.

Motor 230 Vac - Kw 0.185 - Protection IP55. Flow l/h 1.800. Head max 1 bar. Weight Kg. 7. Dimensions: h 50 x Ø36. Complete with connecting flexible hoses, fittings and shoulder strap.

Price € 294.84

Example of application
with Art. F.446.00:

Example of application:

Art. F.440.30 - Descaling pump "MAXCLEAN" completely in plastic, fitted in a stable way on a high performance 36 lt tank and suitable for descaling and cleaning of the whole heating system including boiler coils and heat exchangers. Eliminates the problems of water circulation caused by an accumulation of sediments deposits corrosion and scale. It is fitted with a flow inverter in order to attack scaling in both directions.

Motor 230 Vac. Kw 0.29. Protection IP55.- Flow lt/h 2.880. Head max 1.5 bar. Weight kg 11. Dimensions: h 63 x L 35 X P 35. Complete with connecting flexible hoses and fittings.

Price € 515.92

Art. F.445.00

Application example
on a **circulating pump body**

Art. F.445.00 - Insertion flange for circulating body for the connection to the scale removal pump for the cleaning of systems, complete with flexible hoses, screws and washers. Suitable for circulators with hole distance 68 mm: Grundfos, WSC, Wilo, Salmson, Myson, Antares, Circulating Pumps.

Price € 52.12

Art. F.446.00 - Kit for the descaling of plate heatexchangers with connection enabled by o-ring.

Enables the descaling of primary and secondary circuits. Built with antiacid material and complete with o-ring.

Price € 83.75

Art. F.446.00

Art. F.450

Art. F.450 - Tank of inhibited acid-based scale remover "Disinex" for the removal of limestone or siliceous scale of pipes and closed circulation systems in boiler and heat exchangers. For aluminium or galvanized surfaces use the product "Zinconex" Art. F.453.

Tank of lt	5	10
Art. code	F.450.05	F.450.10
Price €	10.32	18.93

Art. F.453 - Drum of powdered scale remover "Zinconex" suitable for heating and cooling systems with galvanized or aluminium surfaces.

Drum of Kg.	1 Kg.	5 Kg.
Art. code	F.453.10	F.453.50
Price €	15.29	49.20

Art. F.453

Art. F.455.05

Art. F.455.05 - 5 lt tank of neutralising liquid of residual acidity present after scale removal processes of the systems.

Price € 20.37
